

# Broken Markets, Medical Matrix of Misinformation & Gresham's Law

*“Markets can remain irrational longer than you can remain solvent” – John Maynard Keynes*

*“The western media class is a cloistered, incestuous circle jerk that only cares about impressing other members of the cloistered, incestuous circle jerk. It doesn't care about creating an informed populace or holding the powerful to account, it cares about approval, inclusion and acclaim from its own ranks, regardless of what propagandistic reporting is required to obtain it.”*

- **Zerohedge Blogger Caitlin Johnston**

*“We are fast approaching the stage of the ultimate inversion: the stage where the government is free to do anything it pleases, while the citizens may act only by permission; which is the stage of the darkest periods of human history, the stage of rule by brute force.”*

- **Ayn Rand, Russian-American Libertarian Philosopher (1905-1979)**

*“A nation can survive its fools, and even the ambitious. But it cannot survive treason from within. An enemy at the gates is less formidable, for he is known and carries his banner openly.”*

- **Marcus Tullius Cicero, Roman Statesman & Orator (40 BC)**

*“When depreciated, mutilated, or debased coinage (or currency) is in concurrent circulation with money of high value in terms of precious metals, the good money automatically disappears.”*

- **Sir Thomas Gresham, Merchant Financier (1519-1579)**

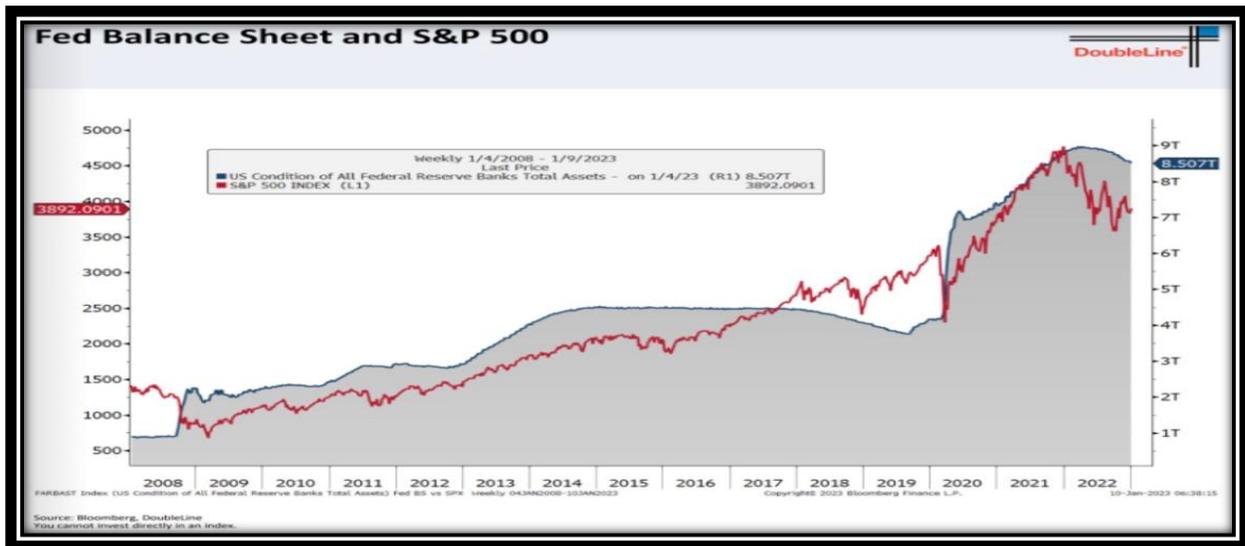

*“When governments start practicing medicine, the story never ends well.”*

## New Year Greetings to All,

Hard to believe another year has flown by! February was the month for **Groundhog Day** and, like the classic film, it seems we are stuck in a *Groundhog Year* – same political drama, war threats, open borders, increasing debt, inflationary cycle, rigged markets, flat metals, media deceptions and the never-ending **plandemic**. Is this the year that we'll face reality? It is now becoming obvious that **Big Pharma** and numerous bad actors have been **gaslighting** us and we need to examine their information war. We also have a **centrally planned economy** that continues to distort capital markets, the cost of money, global commerce and risk management...and this points directly to **Sir Gresham's Law**.

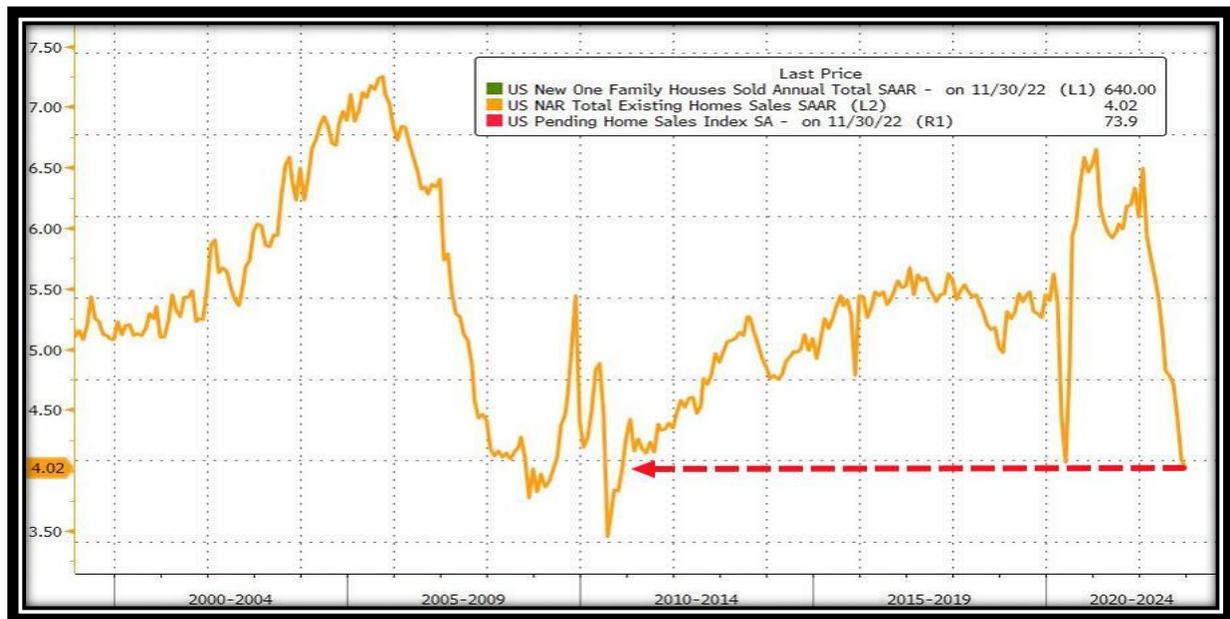

# Central Bank Distortions & Broken Markets

Above is a chart that I have illustrated many times in past Groundhog Years. Just as the Fed increases the money supply (QE) it artificially elevates (inflates) the **stock market**. It is a sickening *sympiotic relationship* between the **evil banksters** and **Wall Street** shills, whom my former boss often referred to as a red light district. Now that the Fed is raising rates it is creating demand destruction and related losses in the stock market. Last year saw a **23%** decline in the S&P 500 Index and bonds fell another **10%**, and this means that a standard **60/40** balanced portfolio was very negative. [Financial analyst M N Gordon](#) notes that the **Dow Index** was only **900** points in **1981** and cheap credit led to a record high last January of **36,800** points. “Without question, the 39-year run of cheaper and cheaper credit had something to do with ballooning stock and real estate prices. Asset prices and other financialized costs, like college tuition, have been grossly distorted and deformed by nearly four decades of falling interest rates. The gap between high asset prices and low borrowing costs have positioned the world for a **great reckoning**. Certainly, 2022 was a difficult year for stock and bond investors. Nonetheless, there is plenty more pain to come.” Yes, a great reckoning is coming and the **real estate market** is also feeling the pain from the current central bank boom/bust cycle. Rising water raises all boats they say and **real estate prices** became disconnected from reality in the past few years.

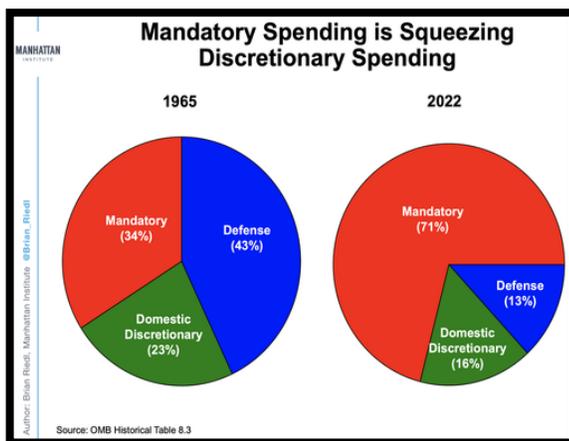

As seen above, home equity in 2007 was around \$15 trillion with mortgage debt of \$9 trillion. Today home equity is more than double to \$30 trillion with mortgage debt around \$12 trillion – this is the largest spread in history as a result of low rates and the pandemic chaos. But this is abruptly changing as existing home sales and prices have dropped over 30% in recent months. This is what “demand destruction” looks like when interest rates are arbitrarily raised by unelected technocrats at the Fed.

Trillions in home equity can also be known as the “wealth effect” since it is only on paper and based on the greater fool theory (like stocks, bitcoin, etc). What goes up must come down, and confirming this downward trend we see that both homebuilder and homebuyer confidence have both declined for 12 straight months – the longest losing streak on record. Is there more pain to come? You bet. And 62% of homebuilders are using incentives like mortgage rate buy-downs and paying points, but sales remain flat. Mortgage rates are around 6%, but this is not unusually high. From 1970 to 2008 we saw rates from 8-11% from lenders. What has changed is the destruction of the middle class.

So, will the **Fed** continue to raise rates? Predictably yes. But it is *too little too late* and the spending in Washington DC (District of Criminals) continues at a furious pace. The latest political drama is the **debt ceiling** non-debate. The next deadline is coming in **June** and both parties will point fingers and even use scary charts in congressional hearings, but the national debt will be increased. And this will be the 79<sup>th</sup> time since **1960** – a pretty good track record. This reckless fiscal policy is enabled by a hat trick between the **Fed** and the Treasury. The **Fed** creates fiat currency out of thin air. The **Treasury** borrows it from the **Fed**. And **Congress** spends it. “The Treasury spends it on whatever Congress wants,” writes MN Gordon. “Congress has the power to stop these currency debasement policies, policies which impoverish the middle class and concentrate wealth into fewer and fewer hands. Yet Congress perpetuates the madness. Because Congress is addicted to borrowing and spending your money.” This is how you have a reckoning day. Politicians always want to raise taxes but *never* want to cut spending. **As seen below**, the growth in “mandatory spending” (entitlements) is now **71%** of the annual budget. This is unsustainable. But one blogger adds, “Given that, don’t expect any fruitful action on **Social Security or Medicare** anytime soon. You can, however, expect that anyone who attempts to tailor the programs to economic reality will be accused of cruel intentions — by disingenuous politicians who portray their own irresponsible inaction as the height of benevolence.”

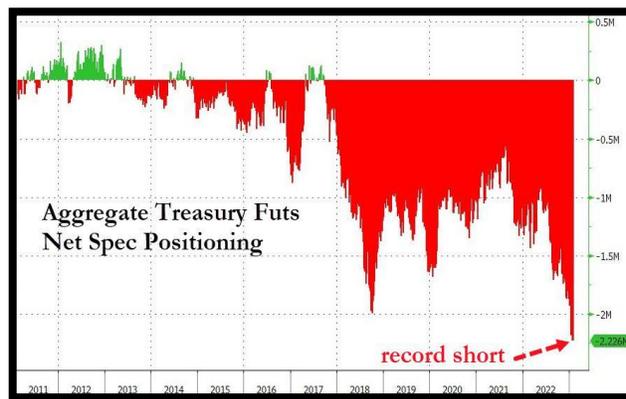

At some point this **fiscal hat trick** will lose its magic and the demographic of the babyboomers (not to mention millions of illegal immigrants) all but guarantees the mandatory spending. How did the **Fed** become our **central bank** and fiscal agent? I cover this in my book, but Ryan McMaken from the Mises Institute recently noted how the **Fed** “is a government agency that does bank-like things:”

**It’s easy to see why many people might think it is a bank. “Bank” is right there in the name of the twelve regional banks that make up the system: for example, the Federal Reserve Bank of Kansas City. The Fed also enjoys many titles that make it sound like a bank. It’s sometimes called the “lender of last resort.” Or it is sometimes called “a banker’s bank.” Moreover, many people often call the Fed “the central bank.” That phrase is useful enough, but not quite true. Moreover, even critics of the bank often repeat the myth that the Federal Reserve is “a private bank,” as if that were the main problem with the Federal Reserve. And then there are the economists who like to spread fairy tales about how the Fed is “independent” from the political system and makes decisions based primarily on economic theory as interpreted by wise economists. The de facto reality of the Federal Reserve is that it is a government agency, run by government technocrats, that enjoys the benefits of being subject to very little oversight from Congress. It is no more “private” than the Environmental Protection Agency, and it is no more a “bank” than the US Department of the Treasury.**

The Fed was created in 1913 by the evil banksters posing as concerned citizens. It is no more *federal* than **Federal Express**, but the *express* purpose was to create an “elastic currency” and the ability to create money out of **debt** (why it is called a note or debenture). The benefit to **the banksters** was a steady supply of credit to loan at usury interest and the benefit to politicians was a steady source of revenue for deficit spending. The **Fed** is basically a **Marxist** Institution since the *Fifth Plank of the Communist Manifesto* by **Marx** stressed, “Centralisation of credit in the hands of the state, by means of a **national bank** with State capital and an exclusive monopoly.” Yep, there you have it. At the time the US had a gold standard but that role was diminished in **1934**, and **Nixon** completely decoupled the **US dollar** from gold redemption in **1971**. As **Thorsten Polleit** of the **Mises Institute** points out:

***On 15 August 1971 Marx's vision became true: The US administration single-handedly terminated the redeemability of the US dollar into physical gold – and so gold, the currency of the civilized world, was officially demonetized. Through this coup de main, in the United States of America, as well as all other countries in this world, an unbacked paper money – or fiat money system was established. Since then, all currencies around the globe represent fiat currencies: representing money creation by circulation credit expansion, not backed by real savings or deposits, monopolized by central banks.***

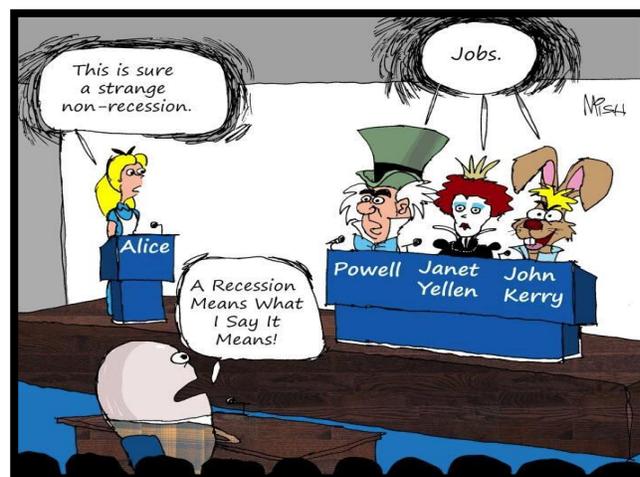

What this means is that there remains **NO** bi-metallic standard for what the **central banks** call money. **Fiat currency** can never serve as a “store of value” because it is “elastic” and inherently inflationary in a debt-based economy. The US has now racked up **\$32 trillion** in public debt and only has two options left: Pay down the debt or default. **We will default.** And this means that **US bonds** will become worthless. **Swiss** money manager **Matthew Piepenburg** summed it up well lately. “The bond market is the thing. Everything follows the bond market’s lead because debt rather than growth, manufacturing and sound fiscal leadership has been the singular and toxic wind beneath the broken wings of every national flag since Greenspan killed capitalism years ago.” In other words, it might be a good idea to short the **US bond market** and that appears to be the trend and especially foreign bond holders:

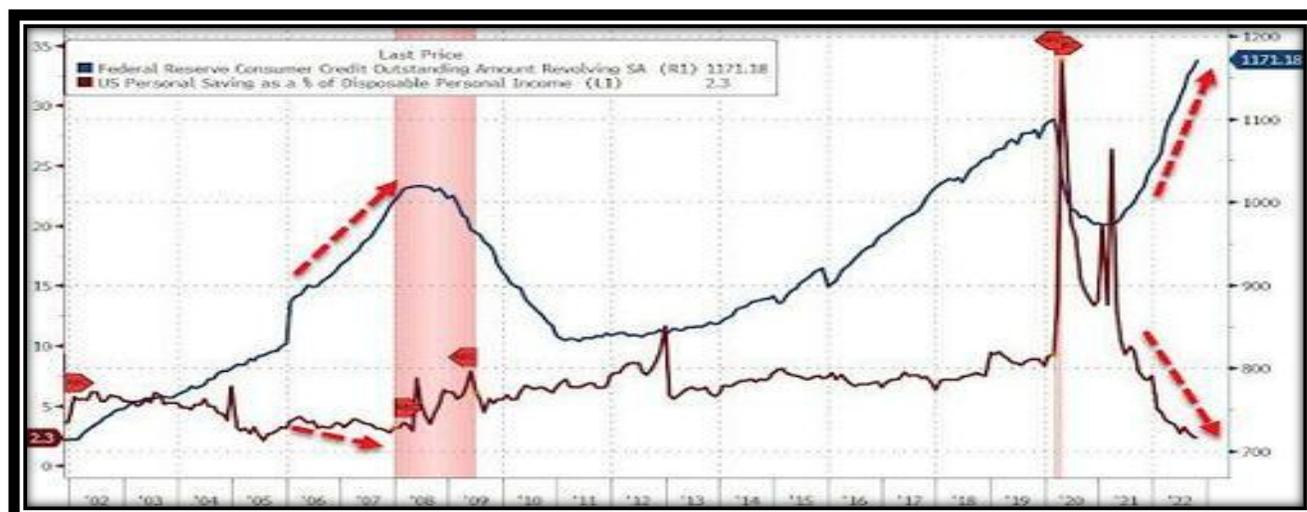

**The ultimate central bank distortion is the notion that prosperity can be created out of debt.** It is a monetary matrix of misinformation that purposely befuddles the masses with exotic terms, operations and policies to fulfill a so-called “dual mandate” of price stability and full employment – what a farce it all is. **Central banking** was created by the banksters *for the banksters*. The **US Treasury** should be our constitutional fiscal agent, not a private cabal in **DC**. Again, I cover all this in my book and I will make mention of this in my conclusion. In the meantime, I implore you to **watch or listen** to this fine video link below with **Peter Schiff** on the whole topic of central bank interventions and so on:

**[Peter Schiff Interview: Why Central Banks Kill Democracy](#)**

I am a fan of **Peter Schiff**, and have listened to his many prolific media appearances, but this interview from **January 6, 2022** was simply one of the best overviews of monetary theory and history that I have ever heard. It is over an hour, but well worth your time and no commercials. [As my man MN Gordon most recently posted](#), “In a centrally planned economy, like America and most countries today, where people are compelled by legal tender laws to use fiat money, people must work, save, and invest with the recognition that the government will continue to arbitrarily change the rules. The **Fed** may command ultra-low interest rates one year. The next year it’s jacking them up by hundreds of basis points.....Now the great consumer price inflation of 2021 into the present marked the highest rate of inflation in **40** years. And this is providing **an instructive lesson** to individuals and organizations about the uncertainty and instability that’s inherent to centrally planned economies.” Yes, it is. The majority of workers in the **US** are now living *from paycheck-to-paycheck* and **70%** cannot raise **\$1000** for an emergency. This is the new normal in the **Powell-Biden** non-recession of **2022-2023**.

**Alice in Wonderland.** That is how bad reality has been distorted today. **Below** is the hard reality of the latest [Consumer Credit Report](#) that “credit card debt hits a record high just as the personal savings rate hits a **17** year low” and it warns that “the state of the US consumer is dire and getting worse [and] the implications for the US economy is clear.” The implications are that the **US** heading for some hard times since **70%** of our economy is based on consumer spending. I often think that the **US** consumer is behaving very much like the central planners today with ever-increasing unsustainable debt.

# Plandemic: *Medical Matrix of Misinformation*

*“It’s important to understand that we are in an information war. The other side has no boundaries, rules, or ethics.” — Dr. Robert Malone, Physician & Biochemist*

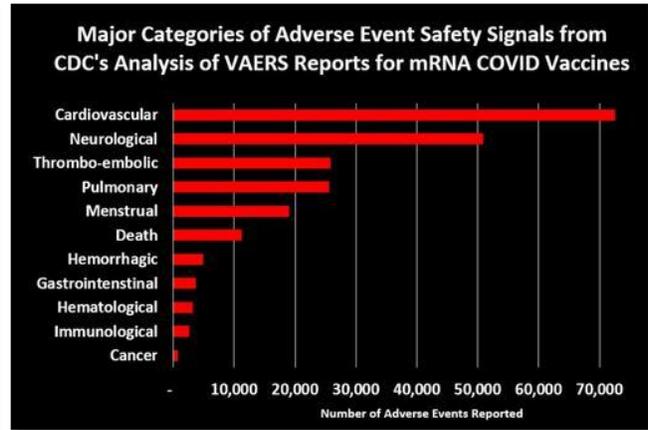

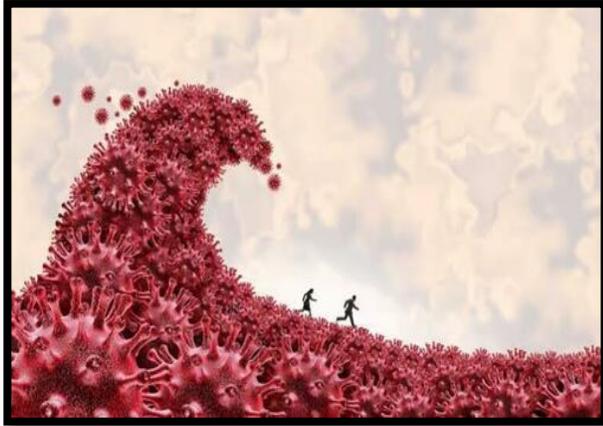

Now we turn our attention to the **medical matrix of misinformation** surrounding the **Chinese/Wuhan bioweapon** and the equally deadly **mRNA “vaccines”** sponsored by **Big Pharma** and psychopathic social engineers. It truly is amazing that people still trust or respect the sickcare industry after so many months of propaganda, deceit, lying and accumulating **vaxx injuries**. In one of my past newsletters I cited a **poll** in which people still rank physicians and nurses as the “most trusted” profession. These same people have betrayed us through an unholy alliance between **Big Pharma** and **for-profit-hospitals**. Certainly not all – **the good ones** have spoken out and most have been lost their license and careers. In addition, governments have benefited by increased control, mandates, misinformation and downright silliness. You really do have to see this pathetic propaganda piece put out by The People’s Republic of Canada and their Chinese Chief Public Health Officer **Dr. Theresa Tam** for their annual **Christmas message** to **vaxx and boost** the children with **masks** that fit “nice and snug:”

## [Canadian Public Health Message with Mrs. Claus](#)

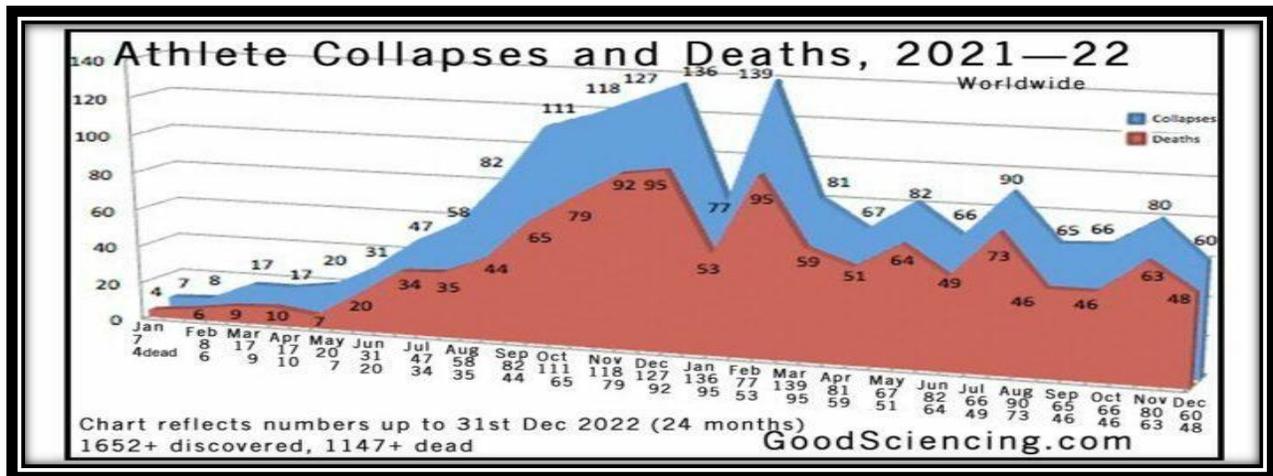

Be sure to see the comments to this **2-minute** scripted psyop heaping condemnation and utter contempt for such **blatant theater**. At this point, I would say that **Canada** is lost to the **Covid Franchise** and the campaign of fear. As health crusader Robert F. Kennedy, Jr. says, “When governments start practicing medicine, the story never ends well.” No it does not. And this campaign will never end. They also befuddle the masses with medical terms, therapies, drug names and so-called vaccines in the medical matrix. This is very intentional. Below is an excerpt from the **Brownstone Institute** on this.

***Politically and economically, it’s been extremely useful to perpetuate the Covid Franchise. Keeping some people scared of Covid helps to sustain the perpetual State of Emergency. Government/Media/Pharma have seared “Covid” into the American consciousness and terrorized people by grossly exaggerating Covid’s lethality. They aggressively suppressed criticisms of the attendant scam. By repeatedly saying “Covid” and “Pandemic,” they weaponized these words in order to pacify and control the masses, to effect the biggest wealth transfer in history to the already rich—including but not limited to, Pharma—to further impoverish the working class that they now disdain, and to strategically change election law.***

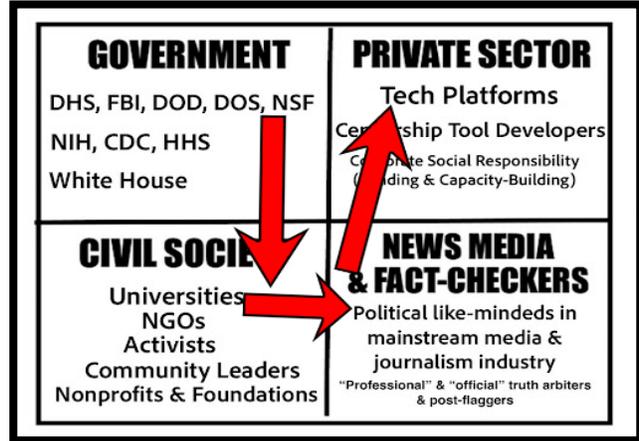

It should come to no surprise that **Big Pharma** spends **80%** on marketing and only **20%** on R&D. As we know, **Twitter** and the **Deep State** were complicit in “rigging the covid debate” as noted in **THIS** article and so many more. More on this in a moment. We are also learning that **the clot shot** was never “safe and effective” as advertised. Drug pushers, pseudo scientists, technocrats, politicians and media gatekeepers have keep people running in fear while the (reported) **vaxx injuries** just keep piling up.

Look at this **stunning chart above** from the **CDC** (the Center for Damage Control) and their own **Vaccine Adverse Event Reporting System (VAERS)**! There has been a massive increase in heart attacks and neurological damage since the rollout of **Operation Warp Speed** to promote the **mRNA** experimental gene therapy. These are reported events, but keep in mind that **90%** of events are simply NOT reported because it takes way too much time to fill out government forms. But even with this, Florida has seen a **4,400%** increase in VAERS reports – [LINK HERE](#). And then we have athletes who are collapsing and dying around the world and I am sure there will many, many more as time goes on.

Again, you would think by now people would make the connection to the vaccine/booster campaign. When I was a kid a “vaccine” was a weakened form of a virus to stimulate your **own natural immunity**, and it was good for life. They have purposely deceived people by using the traditional term to trick people. This is not a vaccine. This is bioweapon. How does a **6-month old** die of a *heart attack* only ten days after a **Pfizer** jab? See story [HERE](#). A report out of **Australia** reveals a spike in heart attacks and myocarditis but the-powers-that-should-not-be are blaming it on video games and climate change! You can't make this up. [THIS](#) article concludes: “Pro-vaccine studies related to the dangers often do not include unvaccinated people as a control group for determining side effects, which suggests a desire to hide health risks associated with covid vaccination. Eventually the questions and the deaths are going to become too prominent for the mainstream to ignore. Are torches and pitchforks the inevitable end for vaccine enforcers and Big Pharma?” I think that torches and pitchforks are coming and we could only hope that all the people I have mentioned above would be brought to justice in some future **Nuremberg Trials 2.0** for medical crimes against humanity. Let's keep going.

“When bad men combine, the good must associate; else they will fall one by one, an unpitied sacrifice in a contemptible struggle.” — **Edmund Burke, English Statesman**

What we have today is a **massive institutionalized matrix of misinformation** in most sectors of our society. As **Dr. Robert Malone** points out we are in an information war and “the other side has no boundaries, rules or ethics.” As I have mentioned, the White House, government agencies and media platforms have all colluded to maintain the official **plandemic narrative**. In journalistic circles this is known as “**The Overton Window**” of acceptable speech named after Joseph Overton who studied public policy at a Michigan think tank. This study deals with political discourse but now we have bad men and women promoting a complete **cancel culture** as seen in **the above chart!** As Caitlin Johnston has observed, the liberal media class is “a cloistered, incestuous” fraternity. “It doesn’t care about creating an informed populace or holding the powerful to account, it cares about approval, inclusion and acclaim from its own ranks, regardless of what propagandistic reporting is required to obtain it.” Only **conservative sites** are charged with spreading “misinformation” and “conspiracies theories,” but never the mainstream media. The *opposite is actually the truth* and this is known as **gaslighting** the masses (manipulating reality). The feckless media class are just **over-paid teleprompter-readers**.

**Think about it.** We have a **deadly plandemic scandal** and yet no journalistic outlet *dares* to expose these crimes like they did **Watergate!** “It takes no Woodward and Bernstein for the Man on the Street to realize that Covid crimes and cover-ups must have involved *practically every agency* in government by now.” writes **Bill Rice** at the **Brownstone Institute**. Indeed! And his article is spot on – [LINK](#).

**The Covid crimes and cover-ups are huge.** We call this a **plandemic** because it was planned by the World Economic Forum, **Bill Gates Foundation** and others back in **October 2019**. Fact-checkers say that it was “just coincidence” that **Event 201** preceded the outbreak two months later. The **WHO** was also involved and now it is **100%** funded by the **Bill Gates Foundation**, I mean c’mon this is the guy who created viruses to later sell antivirus software. In fact, **Robert Kennedy’s** [book \*The Real Anthony Fauci\*](#) notes, “In early 2000, Fauci shook hands with Bill Gates in the library of Gates’ \$147 million Seattle mansion, cementing a partnership that would aim to control an increasingly profitable \$60 billion global vaccine enterprise with unlimited growth potential. Through funding leverage and carefully cultivated personal relationships with heads of state and leading media and social media institutions, the Pharma-Fauci-Gates alliance exercises dominion over global health policy.” **Big Pharma** is where the big bucks are. But hey, it’s all just **coincidence**. And this is how the sickcare industry handles the connection between the so-called vaccine and **vaxx injuries**. Watch this clip!

### **Parody: Are You Suffering From a Medical Coincidence?**

This was after a healthy NFL player collapsed on TV and nobody *dared at all* to state the obvious. And when they die it’s just **Sudden Death Syndrome**. This is not only cringe worthy but downright evil! **Pfizer** has produced most of the so-called vaccines for the **Covid Franchise** and recently their CEO was boldly confronted by **Rebel News in Canada** – see [CLIP HERE](#). **Mr. Bourla** cowardly refused to say a word as he rejoined his buddies at the **WEF Confab**. [Even more damning is this video clip of a Pfizer Director bragging about creating mutations as a “cash cow” for their drug business:](#)

### **Project Veritas: Pfizer Scientists Secretly Mutating Cov-19 for Profit**

Folks, it doesn’t get any more **blatant** than this and you should share this [link](#). [James Kunstler has been reporting on this wicked plandemic and the host of bad actors involved and here is his take:](#)

***Forget about Fauci for the moment. First, subpoena the various deputies working under him going back as far as the twentieth century and see what they know about the twisted path that gain-of-function research on coronaviruses traveled from the DOD’s DARPA to the labs of Dr. Ralph Baric at the U of North Carolina, to labs in Canada, Ukraine, and finally to Wuhan Institute of Virology in China. Then put Dr. Fauci’s ass in the witness chair and wring out the ‘splainin.’ Ask about the patents on the various parts of C-19 and on the mRNA “vaccines” cooked up to fight it, and who got the royalties emanating from all of that. Ask him how and why he continued gain-of-function research post-2014 after the White House directed it to stop. Ask him to ‘splain’ his relations with one Peter Daszak of the EcoHealth Alliance. Ask Deborah Birs to ‘splain’ exactly what was going on in that White House C-19 task force. Why did the public health officers demonize early treatments with known, safe drugs and censor anyone who spoke out against their insane policies? What did the task force know about Pfizer and Moderna’s “vaccine” trials? Ask Rochelle Walensky how come she and the CDC kept pushing mRNA shots and boosters long after a broad array of injuries and deaths presented from their use. Put Bill Gates’s ass in the chair and have him ‘splain’ the labyrinth of funding mechanisms he set up to push “vaccines” all over the globe and how his tentacles happen to penetrate into the World Health Org (WHO). Ask him if he ever had conversations with the leadership of the WHO and the World Economic Forum (WEF) about population reduction and methods for achieving it.***

You wonder what it is going to take to wake people up! Just *this week* the **cloistered media** and US authorities are *finally* admitting that the virus was created at the Wuhan Bioweapon Lab in **China!** This *completely* destroys the official narrative and exposes what [Greg Hunter](#) calls the **Lying Legacy Media** (LLM). This is an all-out **information war** and it is only going to get worse I’m afraid.

*“There are three things in the world that deserve no mercy; hypocrisy, fraud, and tyranny.”*  
**— Frederick William Robertson**

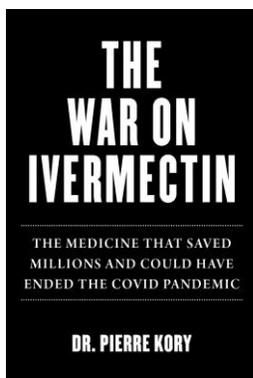

Love this quote. It describes all who have a stake in the **Covid Franchise**. Good men must associate against this contemptible struggle. Truth must prevail, but liars, hypocrites and tyrants are everywhere. In **Australia**, cops are encouraging people to “rat out” their neighbors who are skeptical or refusing the so-called vaccine. Tactical police are shooting people. Unbelievable. Now comes a move by the Democrats in California to “discipline” physicians who spread “misinformation” or are **skeptical** about “the contemporary scientific consensus.” **This Bill** (2098) took effect in **January**, but a judge has now blocked this Orwellian attack on the 1<sup>st</sup> Amendment. Before **Elon Musk** took over **Twitter** it was a literal branch of the **Deep State** attacking the 1<sup>st</sup> Amendment! In the weeks that followed a trove of hard data was dumped but the **Twitter Files** were flatly ignored by the LLM and Donkeys (both taking money from Pfizer). The **Twitter Files** have laid bare the **medical matrix of misinformation** and all of the other crimes, corruption and treason against our country. **Roman** orator **Cicero** once said, “A nation can survive its fools, and even the ambitious. But it cannot survive treason from within.” He said the traitor “rots the soul of a nation, he works secretly and unknown in the night to undermine the pillars of the city, he infects the body politic so that it can no longer resist. A murderer is less to fear.” This is what we are up against. It is a global agenda to control all of us. In the **US** they use the 1<sup>st</sup> Amendment as cover, but deny free speech for others. Our Founders understood that if the 1<sup>st</sup> Amendment fails the 2<sup>nd</sup> Amendment applies – and this would not be torches and pitchforks! God help us.

The scale of this global deception and manufactured consent is almost incomprehensible! These drug pushers, pseudo scientists, technocrats, politicians and media gatekeepers have seized upon people’s fear and ignorance. The entire **plandemic** is rooted in **lies and death** and this is the *very nature* of **Satan** who is a “murderer from the beginning” and the “father of lies” (Jn. 8:44). In fact, the **Greek** word for “pharmakeia” means **sorcery and witchcraft** so that should give us a clue. It is pure evil.

In past newsletters I have compared the present **plandemic** to the **Spanish Flu of 1918**. The latter infected **30%** of the global population (1.8 billion) and killed **30-50 million**! According to [THIS](#) data, we learn that the **Chinese/Wuhan bioweapon** has infected a *mere 1.5%* of the global population with *less than seven million* deaths (WHO data), and mostly old people, with a **99%** survival rate! How is that for some perspective? All of this hysteria, hype and treachery would not be possible except for how our modern **Information Age** has *amplified* the discourse and “contemporary scientific consensus.” It should also be noted that during the **Spanish Flu** they did not wear (cloth) **masks**. In fact, even **N-95 masks** today say [on the box] that it prevents bacteria, but NOT a virus (and to dispose after one use!). So a [new peer-review study states](#) that wearing **masks**.....*had little to no difference* in prevention for the past few years! It was all hygiene theater. Virtue signaling. Worthless. Read more [HERE](#). In fact, [a published study](#) found that ugly people still favor the **mask!** How’s that for following the science?

On a final note, we know that **Lord Fauci** and his ilk are in cahoots with **Big Pharma**, but I did want to mention the efficacy/need for **Ivermectin** as a protocol against the **Chinese/Wuhan bioweapon**. It has been safe and effective for **40** years and **Dr. Pierre Kory** explains this in a recent interview with **Greg Hunter** at [THIS LINK](#). He has also written **the book below** and due in **October** – [LINK](#). You can order **Ivermectin** at [www.ivermectin.com](http://www.ivermectin.com) for fast delivery. My friend **Ty Bollinger** and **Robert Kennedy** have filed an antitrust lawsuit against media sources for their complicity, fraud and lies and I urge you to read more at [THIS LINK](#). This is the battle for the ages. It is freedom or slavery!

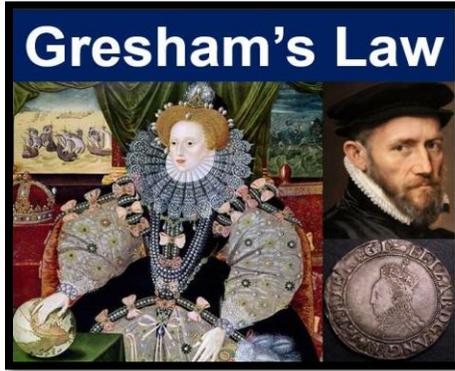

At this point, what we really need is another **Church Committee 2.0** to investigate the US Intelligence Community. After **Watergate** in **1974**, *NY Times* reporter **Seymour Hersh** broke stories how the CIA, NSA and FBI were spying on citizens. [Frank Church chaired the committee in 1975](#) and we all learned about **NSA Operations Minaret** and **Shamrock** (to intercept telegrams, etc) and the infamous **CIA Operation Mockingbird** in **1948** (media propaganda) and plenty of dirty deeds over at the **FBI**, that has become our rouge national police force and should be abolished. The **Twitter Files** reveal just how bad it has become today and [Peter Hoekstra \(Gatestone\) warns](#) that our Deep State poses a grave danger to democracy. “It is clear that our law enforcement community needs to be investigated, but most importantly we need to investigate how our Intelligence Community has evolved from having literally a non-existent relationship with speech in America to being inside the room determining what speech is allowed.” As **Kunstler** said, Congress has the power to subpoena all of those engaged in this information war and the pervasive cancel culture. As **Ronald Reagan** once said he did not leave the Democratic Party, *but it left him!* The **DNC** is now antithetical to everything America stands for, and **Tulsi Gabbard** finally came to the same conclusion and she went independent. At [THIS LINK](#) she articulates every reason why on her new channel and worth a view. Again, the Twitter dump is Exhibit **A** in a new Church Committee, and I would even say **Nuremberg Trials 2.0** for all the guilty. This had better happen soon because we have too many **traitors** in our midst and there is a great risk that the social order could degrade into outright revolution if we don’t come to our collective senses.

And this brings us to a final observation. This information war is really a **battle for your mind**. And the **mind** can be easily deceived. **Orwell** (1984) described **The Ministry of Truth** as follows: “Every record has been destroyed or falsified, every book rewritten, every picture has been repainted, every statue and street building has been renamed, every date has been altered. And the process is continuing day by day and minute by minute.” This sounds like our current state of affairs. A recent article noted the kind of **propaganda** of the last century and concluded with this. “As in the last century, we are surrounded by totalitarian propoganda routinely disguised as ‘the truth.’ In this century, though, the reach and scale of mass indoctrination seems endlessly expanding.” And this is the real danger. The tools for mass indoctrination are assaulting us minute by minute and every day uncovers **another lie**. As stated earlier (p. 7), the Covid scare has been “seared into the American consciousness” and this is nothing more than **The Illusory Truth Effect** of repetition and fluency. You can look that up. The **Bible** says, “As a man thinketh, so is he” (Pro. 23:7). It comes down to perception or **epistemology**, how we know what we know. **John Locke** wrote *An Essay on Human Understanding* in **1689** stating that the **mind** is a *tabula rasa* (blank slate) that we fill with ideas. The only question is how do we sort what is true and false? Right and wrong? This requires logic, reason and critical thinking. Indeed, how did a young **Greta Thunberg** become an angry climate change activist at only eight years old?

She is a victim of **agitprop** and **The Illusory Truth Effect**. Her **mind** has been deceived like so many today and depicted by **Eric Hoffer** in his book *The True Believer* (Hillary Clinton made this required reading by her staff). The “**pseudo science**” behind the green agenda and this wicked **plandemic** is everywhere, but many people are finally waking up and breaking out of the **misinformation matrix**. The Brownstone Institute recently asked how can we trust institutions that lied to us? “There’s nothing that dispels false narratives better than personal inquiry and critical thinking.” Again, we need critical thinking not **Group Think**. After all, we are living in the **Information Age** and we can be discerning. The **Bible** instructs us to “be transformed by the renewing of your mind” (Rom. 12:2). We need a correct epistemology/worldview rooted in divine truth. “Thy word is truth,” said **Jesus** (Jn. 17:17). Young **Greta** and the true believers are simply searching for some meaning and purpose in life *without God*. But as philosopher **G. K. Chesterton** once said, “When a person decides not to believe in God it does not mean he or she will believe in nothing. It means they will believe in *anything*.” Or as the old teen creed goes, if you don’t stand for something you will fall for anything. I will address this issue in my conclusion. The modern technocratic world is on a dangerous path with increasing efforts to control us at every level of our personal lives. **Reagan** warned that as government increases liberty decreases. A generation ago the Russian-American **Ayn Rand** came to the same conclusion in her many writings on liberty. “We are fast approaching the stage of the ultimate inversion: the stage where the government is free to do anything it pleases, while the citizens may act only by permission; which is the stage of the darkest periods of human history, the stage of rule by brute force.”

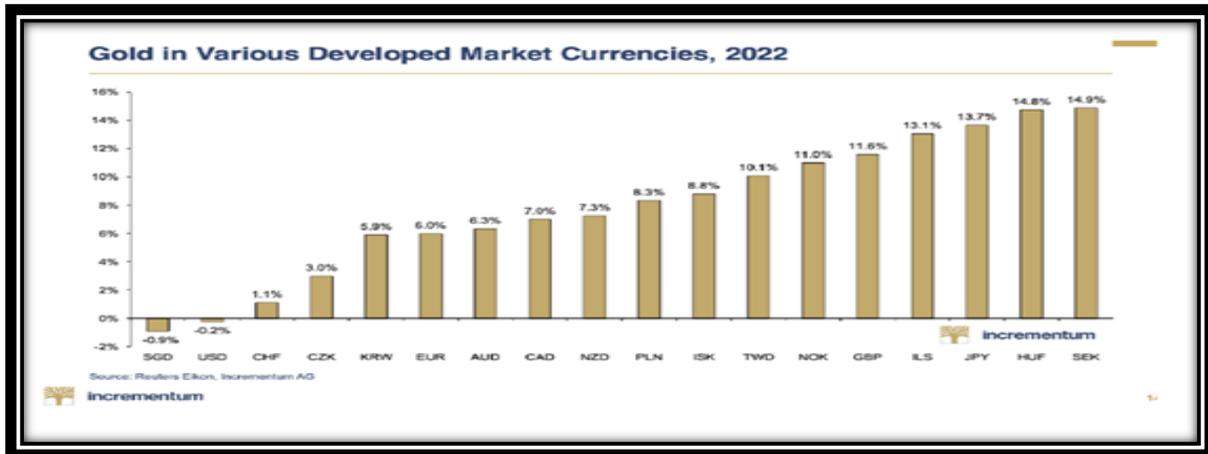

# Global Monetary Meltdown & Gresham's Law

"When depreciated, mutilated, or debased coinage (or currency) is in concurrent circulation with money of high value in terms of precious metals, the good money automatically disappears."

- Sir Thomas Gresham, Merchant Financier

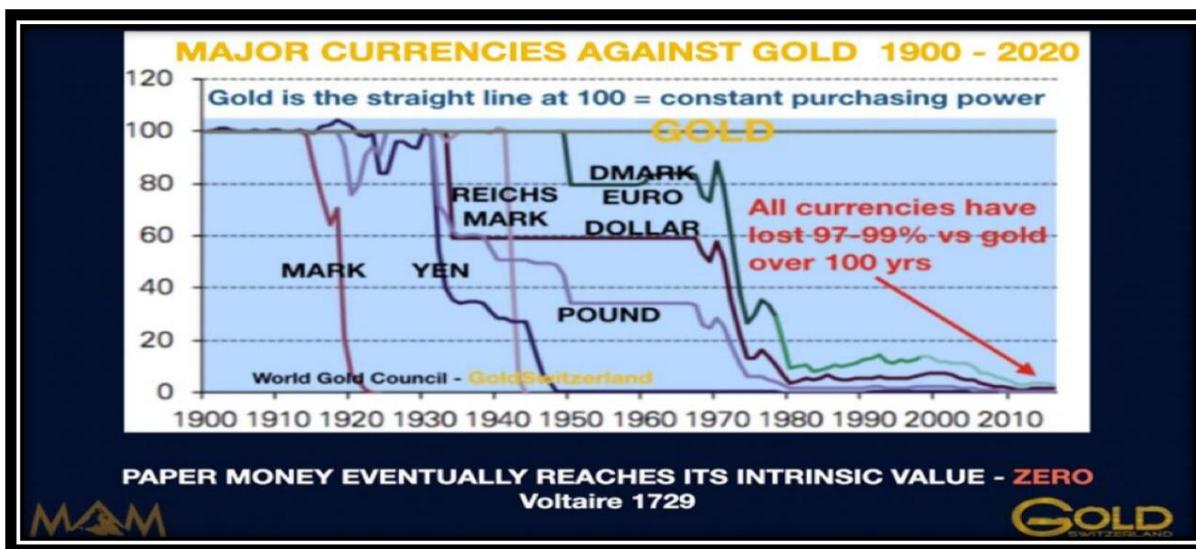

Moving from medical to **monetary issues** we have an equal amount of mischief, deceit and trickery in our capital markets and especially as it relates to real money – **gold and silver**. Sometimes the laws of economics or self-preservation helps to expose the *legerdemain* and corruption employed by **the evil banksters**. One such law is known as Gresham's Law dating back to medieval Europe. **Gresham** lived from **1519 to 1579** and helped found the Royal Exchange of the City of London. King Henry had *degraded* the English silver shilling by adding more *base metals* to the coins. **Tom** informed **Queen Elizabeth** that people were hoarding the older silver coins and thus, the "bad" money was driving out the "good" money – **as cited above**. Today, we have central banksters issuing fiat paper currency as "money" and individuals are hedging with gold and silver as real money. The **US Dollar Index** has risen **16-10%** recently and thus gold prices have risen **3-16%** in foreign countries as seen here.

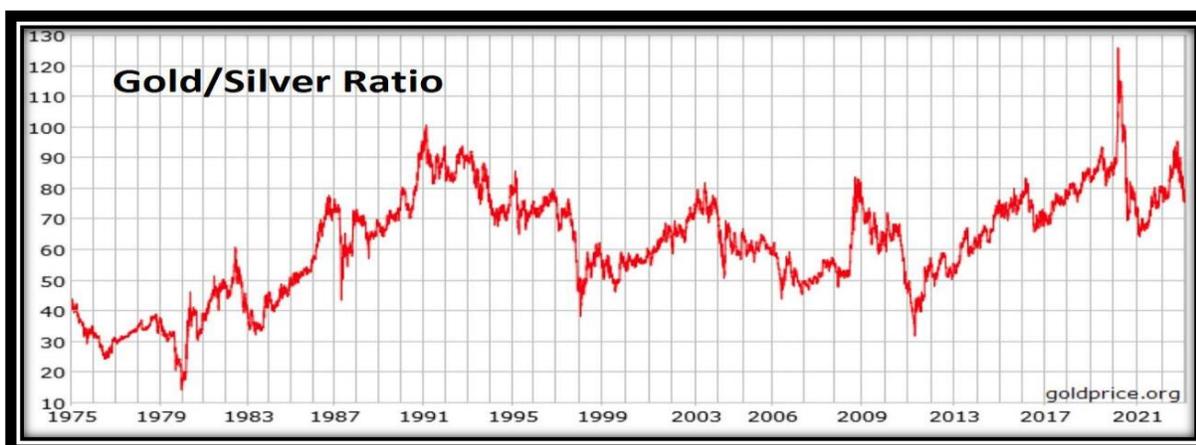

We see **Gresham's Law** at work today with strong demand for the **yellow metal**. "**Gresham's law** is important because it continues to play out in the modern economy for the exact reasons it was applied in the first place. It all comes down to legal tender laws." Writes Doug Turner. "Without effectively enforced legal tender law, good money will drive out bad money because individuals can simply refuse to accept the less valuable currency as a way to pay for transactions." Someone once said that **real money never** needs legal tender laws, and they are right! It is like voting with your feet but the **evil banksters** want to put ankle chains on you and force you to use their **devalued worthless paper**.

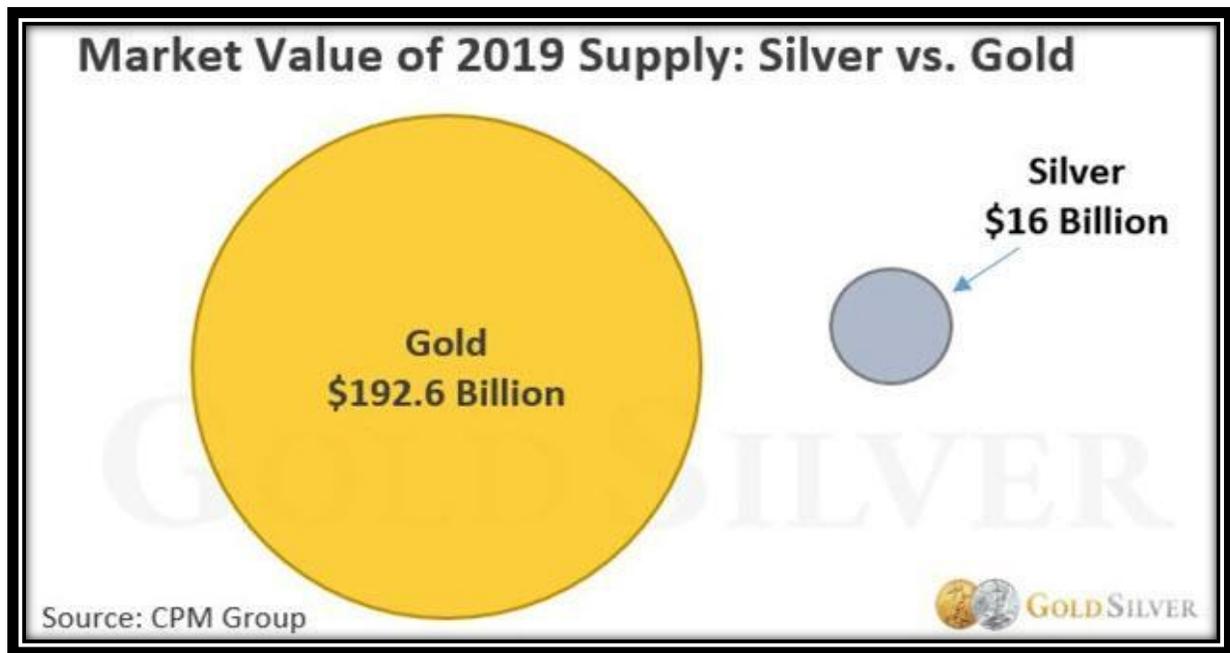

## 5-Minute Video Clip: What is Gresham's Law?

If you have time you could watch the **above clip** for a brief overview of this economic law. I noticed that [the mainstream Investopedia](#) described this law as follows; “With the adoption of paper money as legal tender, the issuers of money can print money into existence and this ongoing debasement has led to a persistent trend of inflation as the norm in most economies. If a currency loses value rapidly, people tend to stop using it in favor of more stable foreign currencies.” Notice how the “trend of inflation is the norm” with NO mention of **real money**? As **Voltaire** has said below, all paper money eventually returns to its intrinsic value of zero and all **major currencies** have declined against **gold**:

The (establishment) **World Gold Council** states that gold demand was up **18%** in **2022**, and especially among the central banks with the highest increase in **55** years. What does that tell you? What do they know? They know that they cannot keep artificially suppressing the **gold and silver** “prices” and someday soon we will see delivery defaults and a radical “repricing” of **gold and silver**. **Below is the silver to gold ratio chart**. The norm is **15:1** and currently it is **80:1** or higher. This is NOT normal. As I have mentioned earlier (p. 4) debt and spending continues at a furious pace and smart people are fleeing into **gold and silver** – especially **silver**. In just the past few weeks [several states](#) have adopted laws to recognize **gold and silver** as legal tender. As they should to reject Federal Reserve Notes! We have Tennessee, Virginia joining others with Wyoming, Missouri and Mississippi most recently.

**So, Gresham’s Law is at work today.** In past newsletters I have stressed the investment opportunity in **silver** and it seems to be getting greater by the month. As **seen above**, the market cap for **silver** is much smaller than **gold** (even in 2019) and still remains the most undervalued asset in the world. In my last newsletter I noted the critical declining **silver** inventories at Crimex and the LBMA in addition to the historic demand for **silver** from **India** that is further noted at [THIS LINK](#). Put simply, **silver** is about to explode to historic highs. The late **Scott Minard** [predicted \\$500 silver some day](#) and more recently silver expert **Ed Steer** has suggested **\$200-300/ounce** – do listen to this **dynamic interview**:

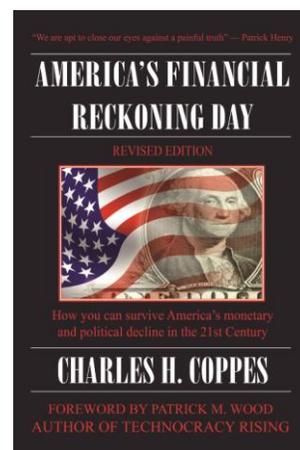

### **[Operation Freedom Radio: Ed Steer & Outlook for Silver](#)**

**Ed Steer** often mentions how **eight bankster firms** are naked shorting and “spoofing” silver in NY in a desperate attempt to hold the fake price down – [LINK](#). Here is his [summary conclusion](#) on **silver**:

***The signs of an rather imminent change are creeping up on us -- and although the **Big 8 shorts** may hold their ground to the bitter end...they will soon discover that the ground has shifted beneath their feet -- and only the 'too big to fail' bullion banks will get rescued...most likely by the Exchange Stabilization Fund, or the Fed. The rest of the shorts will be allowed to burn in a special place in hell..... Whenever that day arrives -- and there's no possible way to avoid it at some point, **it will be an historic moment for the ages** and, as I have been pointing out, it won't happen in a news vacuum. So, until that day arrives, all we can do is wait some more.***

**A reckoning day is coming for silver and gold as we near a global monetary meltdown.** I find it very revealing that **JP Morgan** is among the **eight evil banksters** that has also accumulated over a **billion ounces of physical silver!** Think about that one! Talk about collusion and price fixing. Leading **silver** analyst **Ted Butler** [has commented on the crime scene at COMEX](#) and echoes the words of **Ed Steer**, “Certainly, those in charge of the physical silver turnover in the COMEX warehouses know as well as anyone that once the silver shortage suddenly hits with a force intensified by a **40-year** violation of the law of supply and demand, there will be little anyone can do to prevent a price explosion of the ages.” I know it has been downright frustrating for **silver investors** to endure this long violation of the law of supply and demand, **but Sir Thomas Gresham’s Law** will have the final say – and what a day that will be. My advice is to wait just a little bit more and even get more while this opportunity remains.

**Summary & Conclusion.** This contemporary illustration of **Gresham's Law** should be taken to heart. I have even heard of [silver at \\$700/oz.](#) and I could assist you in this area. We have rigged and **broken markets** that will eventually lead to a global monetary meltdown that I cover in [my book](#). The **Fed** is a central planning politburo that has created a massive wealth effect and distorted markets, or as **Sir Keynes** said, "Markets can remain irrational longer than you can remain solvent." It is sad to see **the middle class** being wiped out by currency devaluations and **inflation** as our central bank keeps financing our unsustainable debt. **Peter Schiff** often says that inflation is the *silent partner* of **America** and I remind you to watch that interview (p. 5). At some point, we will have a **sovereign debt default** and the **Congressional Budget Office (CBO)** has just posted that the **US Treasury** could *default* as soon as **July** – yep, read it [RIGHT HERE](#). Does your financial planner know about this? I seriously doubt it and they have never heard of **Gresham's Law** either. It may seem like these **Groundhog Years** will just keep rolling along but the **financial reckoning day** draweth nigh...

A reckoning day is also coming for this **wicked plandemic** sponsored by **Big Pharma** and the **Covid Franchise** and their **medical matrix of misinformation**. [Have we ever seen anything this evil?](#) Not since the **Nazi** regime in **Germany**, and that is why we need **Nuremberg Trials 2.0**. The **Bible** is clear that *the love of money* is "the root of all sorts of evil" (1 Tim. 6:10). As I covered (p. 7) **Big Pharma** has "affected the biggest wealth transfer in history" with its government partnership in **2020**. Now we are seeing the collateral damage from these **clot shots** and how the sickcare industry has **gaslighted** the American people. The **Twitter Files** have proven this [and lately Woody Harrelson](#) (on SNL) was attacked for linking **Big Pharma** to the media. We were told to "follow the science" but **Dr. Malone points out**, "There is no Hippocratic oath for scientists or science. Yet, science has radically changed culture, society, nature, biology, and even the world. Science and scientists act as if the practice and practitioners of Science were a Godlike entity, free of moral constraints." These people need to be held accountable or we will be at the stage "of rule by brute force." In my next newsletter I will link this to the central bank digital currency agenda and more. Finally, we need an **epistemology** that is grounded in a **Christian Worldview** and I leave you with [THIS CLIP](#) for your consideration. This is a battle between good and evil, [but the Lord Jesus will be triumphant and all place their trust in Him](#). "For God so loved the world that He gave His only begotten Son, that whoever believes in Him will not perish but have eternal life" (Jn. 3:16). This is very good news in a world full of bad news, amen?
