*"Unless we put Medical Freedom into the Constitution, the time will come when medicine will organize into an undercover dictatorship. To restrict the art of healing to one class of men and deny equal privileges to others will constitute the bastille of medical science. All such laws are un-American and despotic... The Constitution should make special provisions for Medical Freedom."*

- **Dr. Benjamin Rush, Signer of The Declaration of Independence in 1776**

*"Our whole practical government is grounded in mob psychology and the Boobus Americanus will follow any command that promises to make him safer."* - **H. L. Mencken**

*"Risk cannot be extinguished, it can only be transferred. By distorting markets to create an illusion of low-risk stability, the Federal Reserve has transferred this fatal supernova of risk to the entire financial system."* - **Charles Hugh Smith Blog**

*"One day the character of this market will change, and when it does it will happen suddenly, and when it does, participants will find themselves severely psychologically unprepared."*

- **Sven Henrich, Northman Trader Contrarian Blog**

## September Greetings to All,

I'm back with some urgent matters to share with you. The news cycle has become almost impossible to manage anymore, and I'm struggling. But I want to **briefly address** our irrational centrally-planned **Fed** economy and the concomitant "**wealth inequality**" being experienced in our nation today. But the larger concern is a growing **medical tyranny** that is being forced upon our entire world! This is a **wicked plandemic**, and the so-called **vaccines dangers** are extremely harmful. Please bear with me as I share this important information, and I'll have some **concluding thoughts** for your consideration.

# Irrational Stock Markets & *Wealth Inequality!*

I think the above chart is all you need to know about rigged capital markets in America. Seriously, dear readers. I have been belaboring this issue all through the **Trump Maga Cult** mania and now the **Third-Biden-Obama** administration. See that pattern since **2009**? Nothing but risk, moral hazard and trusting in the "**Fed Put**" status quo. Is this sustainable? NO. And I provide **this important quote**:

***"At this moment in history, the plan of most market participants is to place their full faith and trust in the status quo's ability to keep asset prices lofting ever higher, essentially forever. In other words, the vast majority of punters are convinced they will never suffer the indignity of getting punched in the mouth by a market crash. What makes this confidence so interesting is massively distorted markets always end the same way: crisis, crash and collapse. The core dynamic here is distorted markets provide false feedback and misleading information which then lead to participants making catastrophically misguided decisions. Investment decisions made on poor information will also be poor, leading participants to end up poor.....to their very great surprise."***

Is a "very great surprise" coming soon? You bet it is. But you won't hear this from your broker, financial adviser or complacent neighbors. Not a chance. Why is this? Some refer to this as the **Recency Bias** (you can look that up). **Stock buybacks** (above) caused the **1929 Crash**, and were banned in **1934**, but restored in **1982**, and thus we keep seeing new "records" in the broad stock market index below. The above quote, is from **Charles Hugh Smith** and he adds that the current market casino created by the **Fed** is now "...the perfection of moral hazard." This will end badly.

Moving on to other financial metrics that reveal massive distortions, I submit the following charts. On the left, we have the S&P 500 "Everything Bubble" that transcends all previous bubbles, and is at *extreme levels* of over-valuations. On the right, we have the classic "Buffet Indicator" at all-time new extreme highs. In other words, the market cap for stock speculation is now a *staggering 235%* to our national **GDP**! Folks, in normal times this would be around **60-70%**. I hope you get my point here.

What enables this Wall Street Casino? Besides **stock buybacks**, they also rig this with "**margin debt**" and analyst **Lance Roberts** provides this word of caution: "While margin debt provides the fuel to support the bullish speculation, it is also *the accelerant* for the reversal when it occurs." When does "the accelerant" occur? When *the greater-fool-theory* runs its course! But for now, as **Smith adds**, "In this perfection of moral hazard, punters [ignorant retail clients] consider it entirely rational to increase extremely risky speculative bets because the **Federal Reserve** will never let markets decline. Given the abundant evidence behind this assumption, it would be irrational not to ramp up crazy-risky speculative bets to the maximum because losses are now impossible thanks to the **Fed's** implicit promise to never let markets drop." In financial circles they call this the "**Fed Put**" and punters have no idea....but the **wealthy class** sure do! They love the **Fed**, because their easy credit [money printing] has created the **obscene wealth inequality** that we see in these **United States!** The rich get richer.

Is this a good thing? Most certainly not. As covered in [my book](#), our **Founding Fathers** despised the evil bankers; but today they control **the monetary system**. If you have time, watch this interview with **David Stockman** below. It is a fine summary of our current risk environment that dates back to our **50-year** anniversary when **Nixon** decoupled our **US dollar** from **gold** in **1971** (at 13 minute mark):

[David Stockman Interview: The Reset and Crash of Epic Proportions](#)

In addition to this [video clip above](#), I would also recommend this important interview with **George Gammon** and his guest **Simon Mikhailovich** who fled the old **Soviet Union** in **1979**, with his warning that the **US** is following the same path to a system of rampant moral hazard, bribes, payoffs, rigged markets, central planning, plunder, greed and *eventual collapse*.....watch it all at [THIS LINK](#).

For more on the fatal implications of what **Nixon's Treasury Department** did in **1971**, I suggest this [LINK](#) for some insight, and [THIS LINK](#) for a brief comment, and [THIS LINK](#) to a PBS program on "*The Power of the Fed.*" A stunning *expose*.....and [HERE](#) is **Peter Schiff's** rebuttal!! **Great!**

So what are the implications of our irrationally **central-planned Fed economy** and the concomitant **wealth inequality**? As **seen above**, since **2015**, millions of Americans are working in the part-time household "gig economy" vs normal employment. Even worse, [THIS](#) survey in **July** indicates that **72 million** are living paycheck-to-paycheck, and fully **52%** of our labor force would be broke *in just six months!!* I mean, talk about a "**wealth gap**" (my preferred term) and social unrest coming!

In a recent post, blogger **MN Gordon** [summed up the conditions that we are facing as a society](#). As a result of the "**Fed Put** status quo," we have nothing but **stagflation** in our future - a period of *low* wages, *high* inflation and *high* unemployment. He notes that this has been coming for many years, and he concludes with these words about the **current boiling points** that we can all sense coming:

*"Boiling points in politics, business, and popular culture are often exceeded with seemingly little advanced notice. Then, in short order, a revolution explodes the status quo out of existence. Not until later is it apparent that the pot was simmering for many years – or decades before the eruption.... The U.S. economy, and by extension the world economy, has reached a boiling point. You can see it. You can feel it. You can hear it. You can smell it. You can taste it..."*

*“All Communist Parties, upon attaining power, have become completely merciless. But at the stage before they achieve power, it is necessary for them to use many disguises.”*

— Aleksandr Solzhenitsyn, Russian Dissident, *Warning to the West* (1986)

The boiling points are now here, and we have to be serious people. Solzhenitsyn is a name very few know today. Like Edward Snowden, he exposed the Soviet KGB Deep State and won the Noble Prize in Literature in 1968. In 1974, he published *The Gulag Archipelago*, that documented the Soviet prison system. He was arrested and tortured in the Soviet prison system for eight years for "treason" and then published his final book - *Warning to the West*. You can find his book at [THIS LINK](#).

His warning from 35 years ago has now come to pass. The Democrats now represent the Communist Party in the US, and they are full of many disguises and fronts to destroy our country. We are divided over race, gender, politics, class warfare and daily dose of "cultural wokism" that is amplified in the social media echo chambers. As I noted in my July newsletter, corporate media and Silicon Valley have produced a toxic Group Think and cancel culture with far more influence than previous times. A recent study finds that smartphones have increased by 460% in the past decade with 73% spending more than four hours on their apps. Journalism has become pure propaganda pushing narratives and radical agendas with 24/7 repetition (The Illusory Truth Effect). That is what makes our times so dangerous - ideas have consequences! Blogger Bruce Abramson recently noted this trend:

***"The radical left hollowed out our institutions and took them over—first academia, then the media, then the civil service, K-12 education, the professional organizations, Silicon Valley, and Wall Street. In 2021, even corporate America is more interested in being woke than in maximizing profits. Social media was the final blow. Social media made incremental outrageousness the dominant incentive system driving American society. Viral posts invariably move one step beyond yesterday's outrage—familiar enough to seem plausible, but still pushing forward in the approved direction. The conventional wisdom dominating American culture is dangerously divorced from reality."***

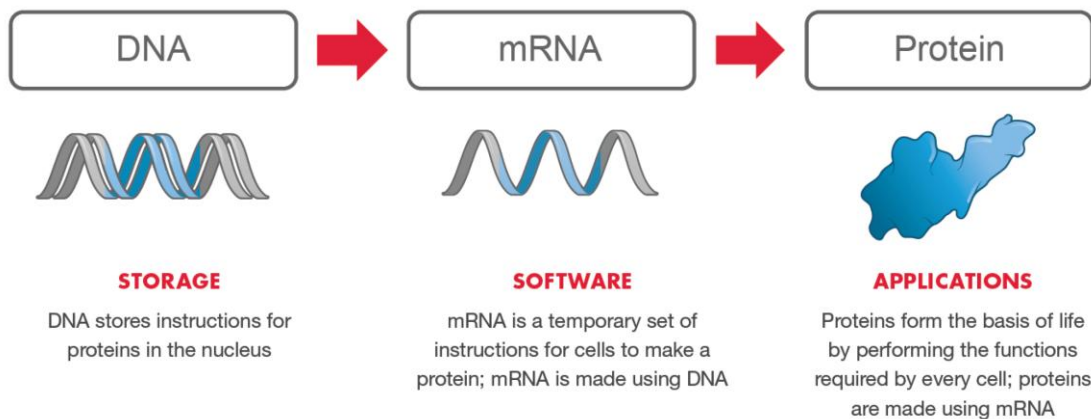

Things are dangerously divorced from reality these days. One writer has made a list of traits among the woke crowd - they are mostly atheists, nihilists, angry, dysfunctional, dishonest, conflicted and full of anxiety. These are the "useful idiots" that Lenin referred to. In his new book *The Woke Supremacy*, Evan Sayet exposes their radical ideologies with great insight (150 pages). He is a former comedian and social critic who has worked inside Hollywood (around David Letterman, Bill Maher, etc), and notes the death of comedy in the supremacy of wokism. Can you imagine how "triggered" people would be if Don Rickles was still around? How about George Carlin? He would have endless material to eviscerate and demolish the irrationality of our times, and nothing says "irrational" more than the global plandemic and fear porn today!

# Global Plandemic & Growing Vaccine Dangers

In our humorless times, we are served a steady stream of statistics, fear and disinformation from our medical tyrants, technocrats, politicians and world leaders about **Covid-19** and their experimental so-called vaccines! As I have covered for months, our government and **Big Pharma** have rushed their new **mRNA** synthetic-spike-protein-gene-therapy upon the fearful masses with an **Emergency Use Authorization** (EUA), and the **woke amplification** of their "safe and effective" vaccines. This is not a vaccine at all, and the drug pushers even admit it on their websites. **Moderna** has never produced a real vaccine, and is basically a marketing firm. **Moderna** stands for "modifying our RNA." The term **mRNA** means "messenger" **RNA**. What are they messaging? Anything they want. Shockingly, they even refer to this as a software operating system like a computer! Think I'm kidding? Here is a quote from their own website as follows: "Recognizing the broad potential of mRNA science, we set out to create an mRNA technology platform that functions very much like *an operating system on a computer*. It is designed so that it can plug and play interchangeably with different programs. In our case, the program or app is our mRNA *drug* - the unique mRNA sequence that codes for a protein." You can read the full text at [THIS LINK](#) and below is an illustration from their own web link:

**Moderna** (and all the others) have recognized "the broad potential of mRNA science." What does that mean? The potential for huge profits...\$\$\$ "We are leveraging the flexibility afforded by our platform and the fundamental role mRNA plays in protein synthesis" says the **Moderna** marketing firm, "to pursue mRNA medicines for a broad spectrum of diseases." Get that? **Big Pharma** is excited about *the broad potential* to advance this genome experimentation into things like **cancer** and all other afflictions of mankind. Where does this end? Who knows? For now, the majority still believe that we have a legitimate "vaccine" (just like we took as little kids in the 1950s), but this is not the case. In the following one-hour interview with **Dr. Martin** he fully articulates how this **mRNA** will operate as an **operating system** in your body with *very bad outcomes* (more on that later). Take time to watch.

**[Dr. David E. Martin Canadian Interview: This is Not A Vaccine!](#)**

We are told repeatedly in the **MSM** that these shots are "**safe and effective**," right? **Wrong!** The **Pfizer** jab is known to contain **graphene oxide** that is very toxic, and you can watch **Dr. Jane Ruby** explain what this means at [THIS LINK](#). **Big Pharma** loves to use *incomprehensible words* to describe their "products" - consider that **Pfizer** contains; "lipids ((4-hydroxybutyl)azanediyl)bis(hexane-6,1-diyl)bis(2-hexyldecanoate), 2-[(polyethylene glycol)-2000]-N,N-ditetradecylacetamide, 1,2-distearoyl-sn-glycero-3-phosphocholine, and cholesterol), potassium chloride, monobasic potassium phosphate, sodium chloride, dibasic sodium phosphate dihydrate, and sucrose." Got to have that sucrose. What is this "secret sauce" as **Ty Bollinger** calls it? Check out [HIS LINK](#) for the shocking details!

But the **FDA** just approved the **Pfizer** shot right? **Wrong!** They approved Pfizer's partner **BioNTech** in Europe and call it Comirnaty. In a treacherous deception, the media implies that the Pfizer shot is approved, but it is still being issued under **EAU** in the **US** (and has absolutely no liability). You can read **Pat Wood's** comment [HERE](#), or **Mike Adams** [HERE](#) and **Greg Hunter** video clip [Right HERE](#). See how this works? Lie, confuse, deceive...and do considerable harm to people. Think I'm kidding? The most common danger is **blood clots** - please look at [THIS](#) graphic blood smear (at 3 min mark)! It should be noted this is from the **Moderna mRNA** shot! Below is one of the most compassionate and articulate explanations of the **blood clot dangers** I have ever heard - it is **40-minutes** long:

### **Dr. Charles Hoffe: No Informed Consent of Vaccine Dangers!**

He is sharing from his heart above. In [THIS SHORT CLIP](#) he provides a **visual** of the **blood clot** dangers.....oh my. This really is a crime against humanity. My older brother took the **J&J** jab (known for blood clots). He recently was found *dead* from **blood clots**...I will share more in my conclusion.

An old **Soviet doctor** reveals that they were developing **mRNA** as a *bioweapon* back in **1980**, and this is a *violation* of the **1975 Biological Weapons Treaty**. [HERE](#) is his comment: "This is why it is important to understand that under this treaty gene-splicing and DNA manipulation used in the recent Covid-19 mRNA vaccines is *illegal*. All mRNA vaccine makers are in *violation* of this Biological Weapons Treaty, and getting away with it... mRNA vaccines do not carry real pathogens, and works by 'tricking' the body into thinking it is under attack with a real virus. The body becomes like a computer, and is instructed to develop the pathogenic proteins itself, 'reprogramming' the human body to produce its own antibodies." **Folks**, this is getting really scary. And now they want to come to your door?

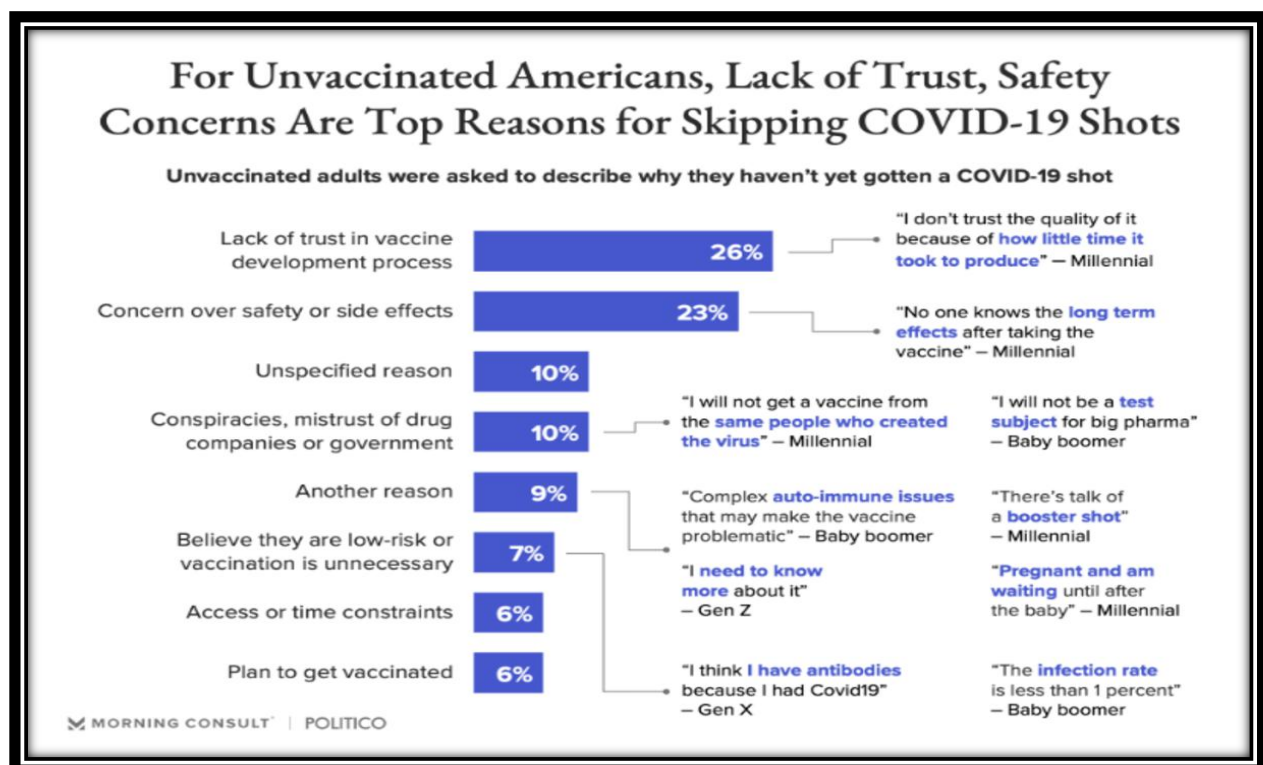

*"They're killing people. Look, the only pandemic we have is among the unvaccinated. And they're killing people,"* - Sleepy **Joe Biden** and his evil Press Secretary **Jen Psaki** (7/16/21)

This really is getting surreal. [Some technocrats on CNN](#) are insisting "it is time to start mandating vaccines." They want to use **FEMA** "surge teams" to go door-to-door like **Mormon** missionaries! In [THIS](#) document they provide "helpful hints" to overcome "vaccine hesitancy" among **the sheeple**.

As **Sleepy Joe** likes to often say, "here's the deal." Well, here is the deal. Way back in **1776**, one of our **Founding Fathers** (Dr. Ben Rush) warned that "the time will come when medicine will organize **into an undercover dictatorship**" and "the Constitution should make special provisions for medical freedom." I mean, how prescient were our noble countrymen? A special provision would have been good, but we have the **Bill of Rights** (as in the 1st, 2nd, 4th, 10th), and what we need is knowledge and resolve to push back against the **woke crowd** and **medial tyrants**! On September 9th, **Biden** issued an **EO** mandating vaccines for federal employees and the private sector (the very definition of fascism). I predict it won't be long before we start seeing protests like **Australia** and other countries.

**Let me state this again** - the new **mRNA** synthetic-spike-protein-gene-therapy is **not a vaccine**! A normal vaccine would be cultured from the actual **Covid-19** bioweapon. But **THIS PAGE** from the **CDC** states that "...mRNA vaccines *do not* use the live virus that causes COVID-19." Thus, it is NOT a vaccine. From the above link the **CDC** states, "The benefit of mRNA vaccines, *like all vaccines*, is those vaccinated gain this protection without ever having to risk the serious consequences of getting sick with COVID-19." Once you are jabbed you won't get sick with Covid-19 again? **False.** Earlier this month **Israel** (the most jabbed country in the world) released **A STUDY** showing that vaccinated people are **13-times** more likely to get sick again with **Covid-19**! Put another way, you are **13-times** better off to have natural immunity than the jab! In Israel, 90% of the hospital patients are those who got the shot! **Zero Hedge declares** - *The Debate is Over* - natural immunity is better than the shots from **Big Pharma**. And they wonder why the plebes have "vaccine hesitancy" in **America**? Here is a **chart** why people don't trust the so-called vaccine and the so-called science....*side effects should be 99%!*

**Think the shot is safe and effective?** I implore you to listen to **THIS ICU nurse** daring to tell her own experience - *this is very chilling* (14-minutes). She relates that those with so-called **Delta** have all been vaccinated (like Israel). Another nurse in **Texas** shares that it is the vaccinated who are the **most sick** now at **THIS LINK**. **Stew Peters** interviewed these brave nurses, and many others like them - he has short daily video updates on **Bitchute**, and you should bookmark his site at **THIS LINK**.

I'm sorry to load you up with so many video clips. We are all busy people, but I "cherry pick" the best ones each month and they are worth your attention. You might want to watch [THIS 15-minute clip](#) on how they are scaring us with "the variants" that are demonizing the unvaccinated, and how this is a spiritual battle between **good and evil**. As **Tyler Durden reports**, "The bad news is that after **Delta**, there are Epsilon and **19** other letters of the Greek alphabet, which will enable the circuitous cycle of misinformation, fear, panic, and control to continue...if this wave of fear-mongering fizzles, there are still plenty of other letters in the Greek alphabet that can be used to provoke paranoia." The medical tyrants are purposely confusing and using coercion to force their mandates! What ever happen to **My body, My choice**, right? "There's no such thing as freedom of choice," says **David Hume**, "unless there's freedom to refuse." And people have good reason to refuse as we shall see. A couple of months ago, **Sam Feist, CNN Senior Vice-President** said "This is the point of carrot vs. stick, and the carrot is no longer going to work." How's that for following "the science" for the masses? Below are **actual statistics** that you will never hear in the media - *and this is already two months old!*

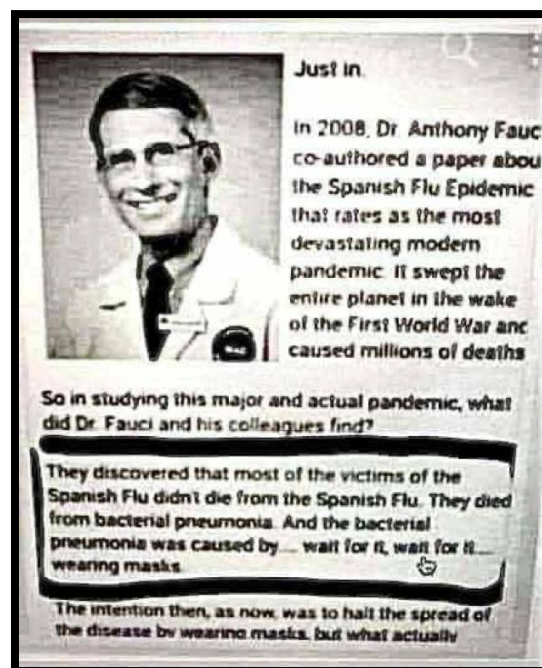

These figures are only from Europe! In the **US**, the **CDC** maintains the "voluntary" **Vaccine Adverse Event Reporting System (VAERS)** at [THIS LINK](#). The numbers are similar. For a little background, total **VAERS** vaccine deaths in **2018** was a mere **22** and **27** in **2019** before the plandemic. As of **September 10**, **VAERS** deaths are **14,925** and **1,520,000** adverse reactions - [LINK](#). Please keep in mind that in **1957** during the **Swine Flu** rollout a *mere 29 people died* and they halted the vaccine!! And today there is still a **99%** survival rate and **natural immunity** is far better than this experimental jab from **Big Pharma**. In the past **20** months there have been only **20** deaths among **2.2 million** military personnel, but the government is making in mandatory to take the jab! Something is terribly wrong with all of this. This is beyond maddening and violation of human rights, *it is criminal.*

And it gets much worse. According to a **Harvard** report previously submitted to the Agency for Healthcare Research and Quality revealed that *fewer than one percent* of adverse events get reported to **VAERS**. That is correct. Doctors do not take any time to report to the **CDC**, and I'm sure the **CDC** likes it that way. The **CDC** operates **11 VAERS** systems in the **US**. According to [THIS](#) whistleblower just one reporting location had **45,000 deaths** and has been covered-up, and this attorney has filed a lawsuit against the **CDC** for lying. So how big are the actual numbers? According to data from the **EU, US and UK** there are currently **38,488 deaths** and a whopping **6.3 million** adverse reactions!! It is now estimated that these numbers should be *ten-times* higher, or **384,880 deaths** and **60 million** adverse reactions.....are you getting a sense of the criminality and depopulation agenda at work here?

### [VIDEO CLIPS: 1,000 Covid-19 Adverse Reaction Stories](#)

Above is a link to view some personal stories from victims if you the time. I mean, how long can they suppress all of these **adverse reactions**? Another nurse on **Stew Peters** explains the **Harvard** study and how this is *ALL* about massive profits for the **modern sorcerers** - [LINK HERE](#). And who is the leading **wizard**, technocrat and charlatan? None other than **Lord Fauci**! I have pre-ordered this new book by **Kennedy**, and [THIS LINK](#) shares the damning background for the book and the career of this evil psychopath "...who has led the crusade to suppress functional remedies like **Ivermectin** and **hydroxychloroquine** which could have avoided *80% of the deaths and hospitalizations* from **COVID-19** and ended the pandemic overnight." And below is an old quote regarding the holy face diaper.

**Big Pharma** hates **Ivermectin** and other treatments. In a recent interview on **CNN**, **Farci** was asked about the superior natural immunity report out of **Israel** (p. 8), and he had **NO** answer! Watch [THIS ONE-MINUTE CLIP](#). What a liar! **Ivermectin** is an effective treatment for **Covid-19**, and is **FDA**-approved (1996) with over **4 BILLION** doses and only...**28** adverse reactions! In a **3-minute clip** from our man **Stew Peters**, [THIS](#) hospital administrator explains why they suppress **Ivermectin**...yep, \$\$\$\$. I leave you with this very important **24-minute clip** that can save your life, and I'll comment below:

### [VIDEO: The History and Story of Ivermectin and Covid-19](#)

I hope and pray that you watch the above history of Ivermectin. This is *the best expose* of why they suppress proven low-cost, non-toxic remedies....and always promote **Remdesivir**. If you watch any of the **ICU nurse videos** above, they will tell you that their hospital will only allow for protocols to use **Remdisivir**. It's the **Big Pharma** favorite for the **plandemic** since it costs **\$3,000** a dose, as compared a few bucks for **Ivermectin**. **Gilead** is the producer and has ties to globalists and support for **Fauci's NIH** operation. In the video clip **above** (at 22-min) you can see that, last year **India** adopted **Ivermectin** and took their daily deaths down to **ZERO!** There is **NO** good reason for pushing experimental drugs, except to enrich the medical-pharmaceutical-healthcare-complex and their paid shills. The **CDC** stands for "**Covid Death Cult**" and they are all in violation of the **1947 Nuremberg Code** that expressly forbids using experimental drugs without informed consent. A generation ago, **H. L. Mencken** said, "Our whole practical government is grounded in mob psychology and the *Boobus Americanus* will follow any command that promises to make him safer." They are using fear to push their hidden agendas and *Boobus Americanus* is falling for it! [This is from](#) **Libertarian Doug Casey**:

***"Telling people that they're going to get sick and die, endangering their loved ones, is a powerful motivator to get them to do as they're told. Still, COVID is 90% hysteria. If someone is old, obese, or sick, they might want to isolate themselves, but it's insane to lock down the whole planet to unsuccessfully safeguard a few people in danger. And, it's equally insane for everyone to take risky vaccines against a non-threat.... I'm afraid it's all leading toward a many-tentacled Police State."***

**A many-tentacled Police State.** I will have much more to say about this in my **next newsletter**. I will also be *exposing* the **Fraudulent PCR Test** that **medical tyrants** are using to promote hysteria (I had too much material for this NL). As a sample, [RIGHT HERE](#) is study done by clinical scientists and immunologist-virologists at **seven (7)** universities that challenged **1,500** "positive" tests for **Covid-19**, and **ALL** of them revealed normal **influenza A**. They are suing the **CDC** for "massive fraud." [Read it.](#)

### **16-Minute Illustrative Video For Those Considering the Vaccine**

I want to leave you with the above **animated video**. This is a **fine overview** of all I have shared in this current newsletter. Share it with others. **Ty Bollinger** has great info on **Ivermectin** [HERE](#), and he has a website dedicated to vaccine knowledge and treatments at [THIS LINK](#). I also want to mention the **Front Line Covid-19 Critical Care Alliance (FLCCA)** at [THIS LINK](#). Why? These are people who really care about you. They have alternative **protocols** for prevention and intervention. These are the **good guys**. Are you at risk of losing your **job** for not taking the jab? You can find employment [HERE](#). Do you need legal representation to keep your job? Check [THIS](#) out. It is time for some serious **push back** like they are doing in other countries. **Pat Wood** wrote the Foreword for my book. I urge you to join his growing movement to expose the lies and fraud of this **medical tyranny** at this link:

**Patrick Wood: Citizens For Free Speech. A Nation of Defenders**

*"One day the character of this market will change, and when it does it will happen suddenly, and when it does, participants will find themselves severely psychologically unprepared."*

**- Sven Henrich, Northman Trader Contrarian Blog**

**Moving on to precious metals, I want to conclude with some perspective.** The entire world is in a huge speculative bubble induced by global central banks. As I have noted, **Wall Street** is one big casino that has created a dangerous **cultural wealth gap** and this **plandemic** is only stoking the boiling points. As **Henrich** warns above, there is coming a day when the rigged capital markets will "change" and most will be *very unprepared* for what follows. As **Warren Buffet** likes to say when the tide goes out we'll see who is swimming naked. It's in this environment, says Swiss money manager **Matthew Piepenberg**, that **gold** protects from market volatility, recession and inflation/currency risk. But we see **gold** (and silver) trading flat for the past several months...even years...why is this? I can tell you as a dealer in **gold and silver**, the demand, premiums and delivery times are extremely robust. The real issue, says **Matthew**, is that the banksters are rigging the "price" of **gold** because "they are terrified of gold's rise for no other reason than it embarrasses currencies (and mad monetary experiments) falling deeper into discredit." Read his excellent overview at [\*\*THIS LINK\*\*](#). For my regular subscribers, they understand that the **evil banksters** are desperate to maintain their fiat fractional reserve debt-based system as long as they can, but they know that the end is near. Why do think central banks have been net buyers of gold since 2010? And, of course, they would like to hedge themselves in **gold** at a lower "price" as **Piepenberg** adds, "Stated simply, a handful of sketchy banks just manipulated the gold price down so they could buy it on sale rather than on high." And why are the banksters doing this? As I addressed in my **July** newsletter, the **BIS Basel III Accord** went into effect at the end of **June**, and this is a mandate among the banksters to raise **gold** to a risk-free **Tier 1 Asset** to achieve a **Net Stable Funding Ratio** (NSFR). Monetary historian **Alasdair Macleod** provides this comment below:

**"The task set for the Basel III Accord was to de-risk the global banking system, with a significant danger detected in uneven derivative positions. When the Basel III Accord was being formulated, uppermost in regulators' minds would have been the failure of **AIG** and the potential domino effect on the global banking system.** What would have concerned the Basel Committee was the possibility that a deteriorating derivative position in the future could recur, and large corporate deposits flee from affected banks in search of safety. Clearly, the issue of systemic risk demanded separate treatment for derivative positions, and it is this that, among other funding issues, the net stable funding ratio addresses (NSFR)."

Folks, the **Basel III Accord** is trying to "de-risk the global banking system" - Really? Good luck with that one! These are the same **evil banksters** who have set the world up for a financial reckoning day, and yes they are **evil**. "For *the love of money* is the root of all sorts of **evil**" (1 Tim. 6:10). Just look at this pandemic and the "potential for huge profits" (p. 6). What's really at stake here is a realization by the banksters that demand for **gold** (and silver) is so great that they are running out of any physical to meet their demand for delivery in both **London** (LBMA) and **New York** (COMEX). As a [blogger for Wall St. Bets](#) put it, "It all signifies a physical bullion shortage brewing underneath the **London** and **COMEX** gold derivatives market's window dressings." You bet it does! And this is the **FIRST TIME** that both **NY** and **London** are facing **physical delivery defaults**, and perhaps very soon! Veteran **gold** trader and **London** whistleblower **Andrew Maguire**, says that **Basel III** "...will give the banks a few more months to reduce their gold derivatives business" and "this will push the price of gold up." How high can the *new price* for **gold** be? Many suggest \$20-30k/oz, and I think this is very likely and perhaps even much more. At some point, people will be fleeing the paper monetary/financial system into the safety of **gold**, but watch out for the alligators (the aforementioned financial advisers, brokers and bankers - p.2). They will do everything they can to keep you fully invested in their accounts and portfolios. Addressing the **Basel III Accord** back in **June**, **Chris Powell** of [www.GATA.org](#) said that this coming "big change in gold pricing" will be like when the **London Gold Pool** failed in **1968** (the scheme to control gold pricing) because of "the exhaustion of the supply of the **REAL** metal" and that this coming failure (to deliver) will **re-price gold** and "put gold into a framework" for a new monetary system - see [LINK HERE](#). I think this is a reference to the **IMF**-sponsored **Special Drawing Rights** (SDR) with a **gold-backing** to replace the **US dollar** as the world's reserve currency. I write about this in [my book](#), and you can learn more about the **Basel III Accord** at [THIS](#) link and [THIS](#) link.

So, what about silver in all of this? Well, I am glad you asked. One thing is very clear about the fake "price" for **silver** for the past 10 years - the evil banksters at **JP Morgan** do NOT want you to buy **silver** at any price! They are suppressing the price of **silver** for the same reasons they suppress **gold**.

**What I am I saying here?** Just as I've said in this newsletter, we have "rigged capital markets in America" and the most concentrated is in **gold**, and even more so in **silver**. **Silver** is tiny market (maybe \$30 billion), but it is still a monetary metal (the poor man's gold), and the most likely to default soon, and these **banksters** are trying to maintain the *status quo*. In the case of **JP Morgan**, they are at the center of all **silver** manipulations known as "**spoofing**" to suppress the fake "price" of **silver**. **JP Morgan** has repeatedly paid fines, and **silver analyst Craig Hemke** provides this comment below:

Between 2008 and 2016, JPMorgan engaged in a pattern of manipulation in the precious metals futures and U.S. Treasury futures market, the CFTC said. Traders would place orders on one side of the market which they never intended to execute, to create a false impression of buy or sell interest that would raise or depress prices, according to the settlement.

This manipulative practice, which is designed to create the illusion of demand, or lack thereof, is known as "spoofing."

Some of the trades were made on JPMorgan's own account, while on occasions traders manipulated the market to facilitate trades by hedge fund clients, the CFTC said. The bank failed to identify, investigate, and stop the behavior, even after a new surveillance system flagged issues in 2014, the agency said.

**JP Morgan** has been manipulating **silver** like this since 2008. Can this continue? **Hemke** concludes, "I can assure you that it WILL NOT." He adds, "Instead, a moment will come when the overstretched fraud of the derivative markets will snap. When this happens, it will be recalled in the same manner that **Hemingway** once described bankruptcy—the current pricing scheme will fail 'gradually and then suddenly.' Those who continue to plan for this **inevitable event** will find themselves rewarded and, most importantly, *protected* when it finally occurs." Read his full comment [RIGHT HERE](#).

It is highly significant that **JP Morgan** has now accumulated the largest physical silver hoard in history since 2011 - they now have over **a billion ounces of silver** according to **Ted Butler**! **Butler** has been covering this beat longer than anyone I know, and here is his recent quote on **silver**:

***"Truth be told, I consider silver to be much more of a sure thing today than ever before. Imagining sharply higher prices is as easy as falling off a log, and I am hard-pressed to imagine significantly lower prices under almost any future conditions... Should the big shorts refrain from adding shorts and stop their outright cheating, as I expect, then we are talking about a whole new price world for silver. Freed from the shackles of price suppression by the 4 big COMEX shorts this whole new price world should feature gains almost beyond belief. One of the great unintended consequences of our brave new financial world of previously unimaginably high prices for stocks, cryptocurrencies and real estate is that it smooths the way for shockingly higher silver prices. So let there be no mistake in my current outlook for silver prices – pick an impossibly high price and then double or triple it."***

You can find read more at [THIS LINK](#). **JP Morgan** is *spoofing silver* to buy it on the cheap. Simple as that. And that is why we should be buying **silver** on the cheap in these very risky times. For more from **Butler** on **silver**, I invite you to listen to [THIS VIDEO](#) on the coming **silver explosion**.

For silver investors, I know this has been extremely frustrating. They say that *all manipulations* do eventually fail, and this seems imminent. "Gold and silver will rise," says **Piepenberg**, "*but don't expect a straight line or zero discomfort and volatility.*" And we are in for major market volatility and discomfort that sometimes keeps me awake at night. In a recent short clip, **Mike Maloney** gave **ten reasons** why he **bets his life** on "triple-digit silver" and you just might want to see [THIS ONE!!](#) And I have a final comment about **silver** from analyst **Dave Kranzer** that will sum things up for us. He notes how the **London Gold Pool** failed back in **1968**, because they ran out of **physical gold**, that exposed their paper markets, and **Nixon** had to decouple **gold** from the **US dollar** in **1971**. He then says:

***"I've learned over the last 20 years to refrain from putting out price projections over specific timelines. But eventually the markets in general will shed the denial that inflation is anything other than 'transitory' and the precious metals will experience massive capital inflows as an investment mechanism to preserve wealth as fiat currency devalues toward zero. As such, I am highly confident that six months to a year from now gold, silver and the mining stocks will be significantly higher. Moreover, some mining stocks have the to potential to provide lifestyle-changing wealth appreciation."***

And that is the perspective that I want to leave you with. **Precious metals** (and mining shares) will provide *huge wealth appreciation*, and for a **graphic illustration** you should [SEE THIS LINK](#).

**In conclusion**, we see that most markets are rigged and most everything is divorced from reality. **Gold and silver** seem like a "sure thing" in this reckless environment, and you can contact me below at **IDP**. You can listen to a **recent podcast** I did if you **click my photo**. I also encourage you to share the **above video** with friends and family! The **plandemic** is *pure evil* and they are using fear to *kill people, like my brother* who had no informed consent! This violates the Nuremberg Code and it is leading to the "mark of the beast" (Rev. 13) - [LINK](#). There are known cures for the bioweapon virus; but our *greatest need* is to seek the cure for "**the sin virus**" that affects all of humanity and is **100%** fatal. There is no need to fear death if we are trusting **Jesus** as our only cure for **sin** "...in whom we have redemption, the forgiveness of sins" (Col. 1:14). "For there is no other Name...by which *we must be saved*" (Acts 4:12). And I would invite you to click [THIS LINK](#) from my website that explains the **need for faith** in these uncertain times, and I trust you will do that.
