

Covid-19 Roadmap, Financial Repression & Silver Delivery Issues

Posted March 27th, 2021

By Charles H. Coppes

"Banking was conceived in iniquity and was born in sin. The bankers own the earth. Take it away from them, but leave them the power to create deposits, and with the flick of the pen they will create enough deposits to buy it back again. However, take it away from them, and all the great fortunes like mine will disappear and they ought to disappear, for this would be a happier and better world to live in. But, if you wish to remain the slaves of bankers and pay the cost of your own slavery, let them continue to create deposits."

- Sir Josiah Stamp, Bank of England President (1880- 1941)

"The flight away from fiat currencies such as the US dollar into hard forms of money, such as physical gold and silver bullion, will exert additional pressure in both gold and silver markets, drying up necessary physical supply required to settle contractual delivery requirements, especially in the Comex futures market."

- John Adams Economics Blog, March 21, 2021

"There is a tide in the affairs of men, which taken at the flood leads on to fortune. Omitted, all the voyage of their life is bound in shallows and in miseries. On such a full sea we are now afloat, and we must take the current when it serves, or lose our ventures."

- Sir William Shakespeare, English Poet

"If there was ever a time to go big, this is the moment."

- Janet Yellen, US Treasury

Spring Greetings to All,

As many of you know, the term "inflation" has been in the news lately. **Inflation** is created by central bank policy. "I don't know what's more ludicrous at this point," **writes Tom Luongo**, "the amount of **central bank intervention**, or the whining from the markets *that there isn't enough!*" **This** is what I want to address in this mailing, along with the topic of **financial repression** and the latest in the **silver** market. **But first**, I have to rant about this wicked global "plandemic" and the **Covid-19 Roadmap** that is leading to a **technocratic hell** for all of us. Things are happening rapidly and we need to be aware.

Global Plandemic & *The Covid-19 Roadmap!*

"A lie told once remains a lie, but a lie told a thousand times becomes the truth" - **Joseph Goebbels**

Did you know that **Dr. Fauci** is the highest paid federal employee? More than **\$10,000.00** per day to hector the **American** people about fake science, virtue signaling and fear porn. Thankfully, people are finally waking up to this petty tyrant, as **Senator** (and real doctor) **Rand Paul** recently exposed for all to see in this splendid exchange in the Senate chamber - this is a **6-minute clip** and a must see:

Sen. Paul Pushes Back Against Dr. Anthony Fauci's Theater

What I love about this clip is that it creates clarity. **Liberals** love to say follow the science, but they constantly change what they call science. This is not about healthcare concerns. It is about control and exploiting people's fears. **Tucker Carlson** on **FOX** does an excellent job of exposing these charlatans and their sacred shibboleths. Consider the whole issue of wearing masks. They say wear two masks, then three, then four! *Why not ten?* As noted below, the **CDC** convolutes the whole mask farce!!

The CDC says the flu is almost nonexistent this year because of wearing masks and social distancing.
The CDC says COVID-19 is out of control because no one is wearing masks and social distancing.

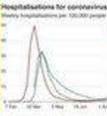

In a recent address, **Biden** delivered a dystopian address like we are living in the **Black Death** and pleaded with us all to wear the holy face diaper. If I ever wear a mask it will be **The Offensively Fake Mask** available at [THIS LINK](#). **Dr. Scott Atlas** recently commented how shocked he was at how the government is "mandating our behavior" with decrees and edits and adds, "Second, I remain surprised at the acceptance by the American people of draconian rules, restrictions, and unprecedented mandates, even those that are arbitrary, destructive, and wholly unscientific." It truly is shocking to see how fast people have become sheeple here in the **US** and around the world. More alarming is how this virtue signaling will be used to force mandatory vaccinations! Put simply, if we are too cowardly to refuse a ridiculous mask what about the vaccine? Below is the chilling **Covid-19 Roadmap** that we are on.

COVID-19 Roadmap

The 12 Step Plan to Create a Totalitarian “New World Order”

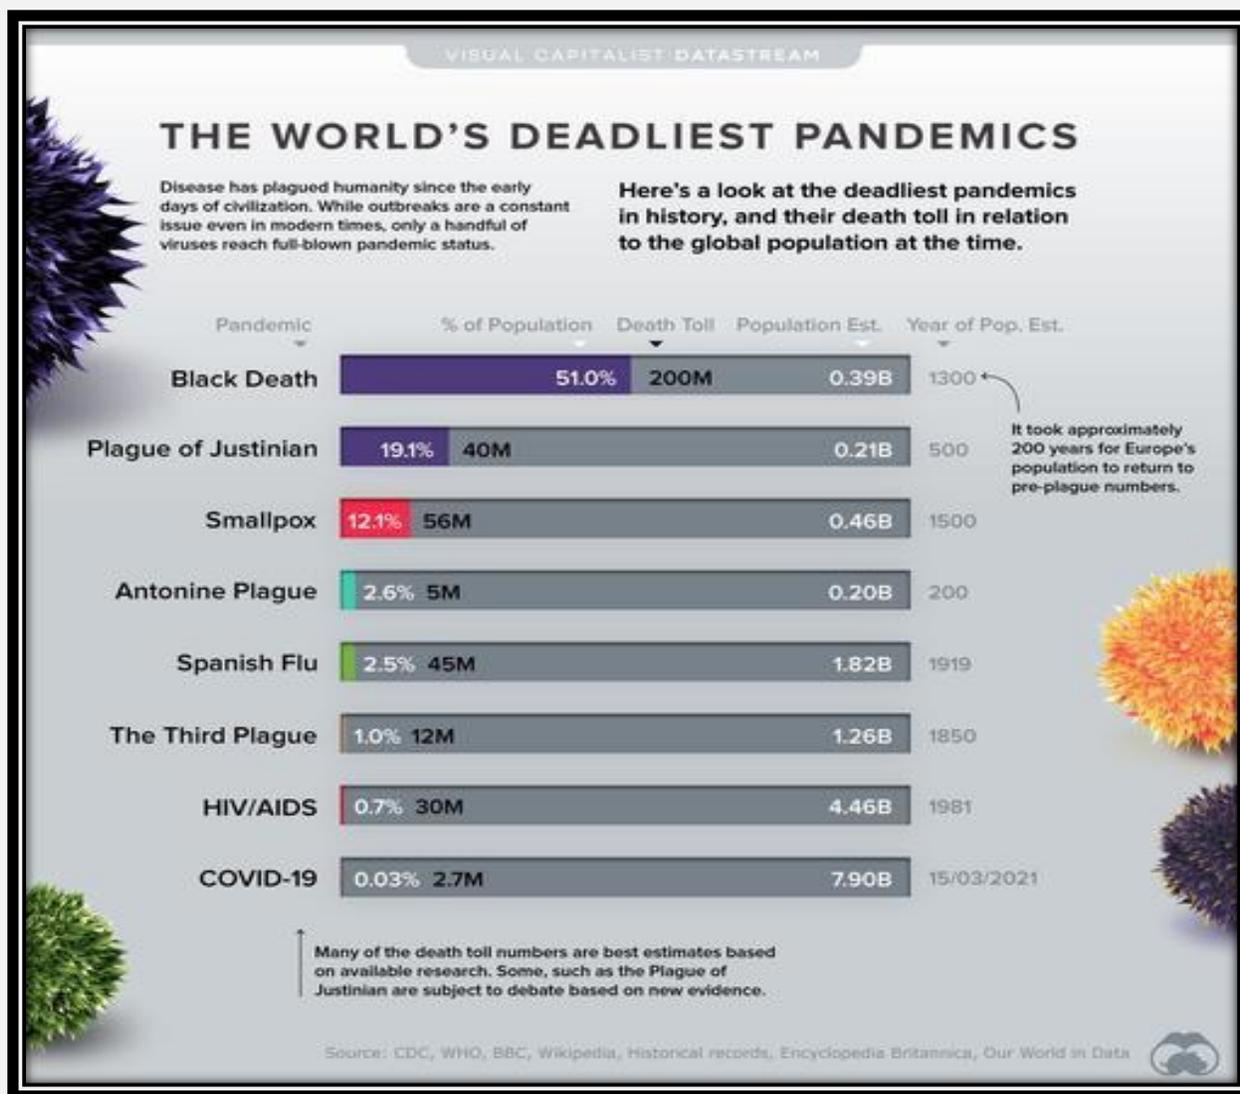

DJIdentSignposts.org

1. Create a Problem		Take a flu-like illness with very common symptoms, that can be easily treated and a 99.97% recovery rate . Essentially a bad dose of seasonal flu , but like the regular flu can be dangerous to people with weak immune systems or serious underlying health issues. Call it COVID-19.
2. Provoke a Terrified Reaction		Use the mainstream media to provoke massive fear. Ensure daily reporting of any death of someone “with” COVID as being a death “from” COVID. Report all “cases” even though most people have no or mild symptoms . Bribe scientists with grants and doctors with bonus payments for supporting testing and vaccinations.
3. Impose Lockdowns		Impose national and local lockdowns. Commence the “Great Reset” to transfer wealth and power up to global corporations and the financial elite : (1) Destroy small businesses; (2) Strengthen global corporations; (3) Cause a massive rise in State debt to international financiers; (4) Push cashless payments.
4. Exaggerate “Cases”		Use totally unreliable PCR tests to massively exaggerate the number of “cases” or so-called “infections” among healthy people who have no symptoms and cannot spread any infection.
5. Mandate Face Masks		Promote fear and to signal public compliance by mandating masks. In reality, cloth masks are totally ineffective against any virus . Prolonged use of masks actually increases health risks due to lack of oxygen, breathing in waste air and fungal infections.
6. Impose Contact Tracing		Normalise surveillance . Get people to accept having all of their personal movements and contact with people tracked, recorded and analysed.
7. Impose Health Passport ID systems		Introduce “health passport” apps for smartphones as a form of biometric identity card to monitor and control people’s freedom of movement and ability to access education, employment and all types of services . These will become a global digital identity system that will compulsory to go anywhere.
8. Rollout 5G Microwave Networks		5G networks allow constant gathering of huge amounts of personal data from smartphones and all internet connected devices. 5G massively increases the amount of high-frequency microwave radiation that can reduce blood oxygen levels and trigger COVID-like respiratory symptoms . 5G illnesses will be blamed on COVID to justify vaccinations.
9. Mandatory Vaccinations		Mandatory vaccination will generate massive profits for Big Pharma corporations who have 100% legal immunity for all injuries and deaths. Vaccines will destroy natural immunity , increase sterility rates and promote global depopulation . New DNA and RNA vaccines will create genetically modified humans bioengineered for obedience, sterility and easy control.
10. Cashless Economy		Cash allows people to shop in privacy. With cash the State does not know what, where or when you buy something. A cashless economy means a total loss of financial privacy as all purchases can be constantly monitored and controlled. Access to digital finance can be withdrawn from anyone who dissents from officially approved purchases, views or behaviour.
11. Compel RFID Microchip Implants		Move from Health Passport apps to “more convenient” Radio Frequency Identity (RFID) microchip implants that allow constant 24-7 monitoring of health, movements, contacts and digital payments . With RFID chips, all human privacy will completely cease. Initially, these chips will be voluntary. Once normalised, they will become compulsory.
12. Arrive at the Totalitarian New World Order		A depopulated, high-tech totalitarian world with genetically modified humans, weakened natural immunity, micro-chipped, permanently connected to the internet, monitored and controlled 24-7. Human beings will be reduced to the level of “ biological machines ” living in a totalitarian prison. The real goal of this so-called “Great Reset” is high-tech Fascism / Communism . COVID is merely the excuse.

I hope you can read the small print above. Pretty scary huh? **Step #10** is the endgame and why they are promoting a central bank digital currency - [LINK](#). The next step is tagging us with positive **ID** and **RFID** chips (Rev. 13:16-18). A vaccine shot is becoming necessary for **air travel**, [and soon for your job!](#)

Dr. Ron Paul relates that the **E-Verify** system has been used to screen job applicants for **20** years, and soon they can add a **QR Code** to *verify* that you have gotten a shot! **China** (of course) has just announced the [world's first vaccine passport](#) in #7 above using **QR** (Quick Response) codes. And now you also know why they are pushing the new **5G** technology so hard! This is all about **control** on a scale never seen before. **Canada** is forcing people into [mandatory travel quarantines](#) (36-min video), and on and on it goes. Is all of this panic and fear warranted? Absolutely not. **Below** is a comparison of previous pandemics for the record:

The Covid-19 plandemic (and likely common flu) has killed a mere **0.03%** of the population! Or put another way, it is **3 million** out of **7.8 billion** people. Hardly the **Black Death**. Yet, people react like it is **99.7% fatal!** I will never take a government/big pharma/experimental shot funded by a psychopath like **Bill Gates!** In fact, I will give you **31 good reasons**, written at [THIS LINK](#). Please check it out and pass along maybe. You will notice that the first reason is - that this is **NOT** a vaccine! "A vaccine by definition provides immunity to a disease." This is a gene-editing medical treatment, *and worse!*

And that brings us to this "so-called vaccine" and some very concerned doctors. I hope you will take some time to view these video clips, and I have listed them in order of urgency. We start with **Dr. Tenpenny** in this important **60-minute** interview. She notes how people will start having bad adverse reactions to this **mRNA** injection. There are already **40,000+** cases and deaths not being mentioned:

[Dr. Sherri Tenpenny: How the mRNA Will Work in 3-6 Months](#)

For more information on **Dr. Tenpenny** go to her website [HERE](#). Next, I came across what appears to be a four-part series exposing the utter fraud and deception with this experimental gene therapy. This features **Dr. Judy Mikovits** and her bold prediction that this "vaccine" will kill **50 million Americans!**

[50 Million Will Die from mRNA: Something is Not Right - Part 1](#)

This documentary notes how this **mRNA** injection changes our **DNA** and features adverse reactions, comments by **Robert Kennedy**, the **Gates Foundation** and more (34-minutes). At the above link you can also access the other parts in production. I have reviewed some of their work and it is a shocking *expose* for sure. For the full text from **Dr. Judy Mikovits** regarding Part 1, go to [THIS LINK](#). Below is a **17-minute** clip by **Dr. Hotze** and he stresses how **Big Pharma** has **NO** liability for their damages!

[Dr. Steven F. Hotze: Dangers of the So-Called Covid-19 Vaccine](#)

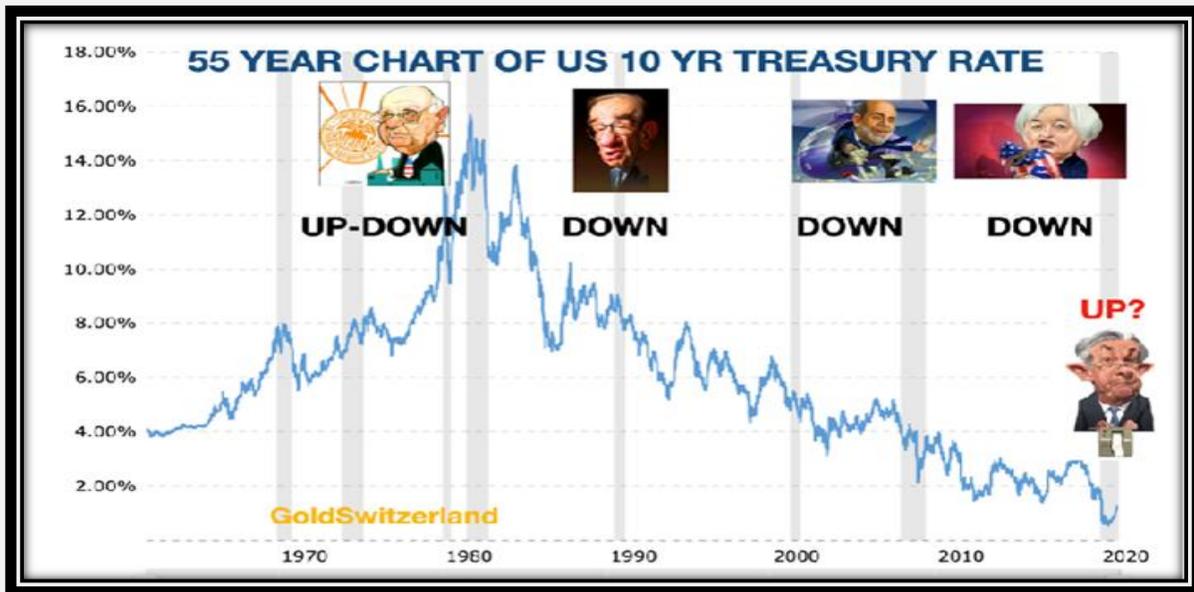

Again, isn't it amazing how these **unelected technocrats, charlatans and petty tyrants** have scared us into our pathetic safe spaces? I am *literally ashamed* of my fellow countrymen every time I venture into the local community; and I have heard this from my *entire circle* of friends and clients around the nation. The above poster is an apt depiction of our cowardice is it not? **The Covid-19 Roadmap** is pretty scary, and it is advancing because of wholesale ignorance and virtue signaling. I leave you with **a couple links** for your consideration. At this **8:35** mark, **Dr. David Martin** explains the topic below:

[Dr. Martin: Moderna mRNA is Gene Therapy Technology](#)

In other words, this is not a vaccine. But a lie told **a thousand times** becomes the truth. If you, or a loved one, have mistakenly taken this shot, I recommend [THIS LINK](#) from my friend **Ty Bollinger** and ways to neutralize the potential damage from this injection. I also recommend that you bookmark his [website](#) for future reference - he is a leader in exposing medical tyranny and **Big Pharma**. As always, it is about **the love of money** and how to control people in the private and public sector. So we now turn our attention to the **evil banksters** and how they are distorting our capital markets.

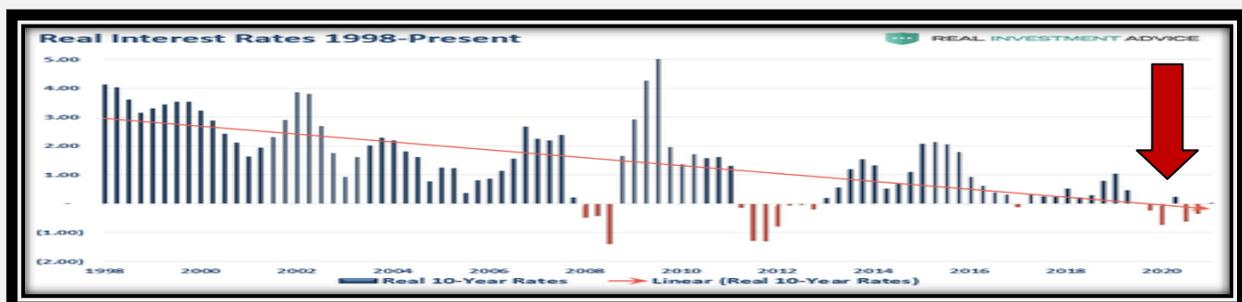

Nominal Interest Rates & *Financial Repression*

So, what is Financial Repression? It's basically Fed policy to increase the money supply so that *real* inflation is higher than the stated "nominal" inflation rate. In other words, the phony 2% inflation rate is actually 10% or higher according to the [Chapwood Index](#). Why does the Fed do this? They need to service the national debt with increasingly devalued currency. As [noted here](#), "financial repression is most successful in liquidating debts when accompanied by inflation and can be considered a form of taxation, or alternatively a form of debasement." So there you have it! **Inflation** is a **hidden tax** that *steals* your purchasing power and punishes savers and pensioners. In a recent interview, **Mike Pento** made the following observation and he thinks it all blows up this fall - you can watch at [THIS LINK](#).

*"If you continue to print money, borrow money and monetize that debt, inflation is going to wax higher and higher. You are going to blow up the bond market. **If you blow up the bond market, you will blow up high yield, you will blow up credit, you will blow up the real estate market and then the stock market.** If they stop, the only buyer of U.S. Treasury bonds is the Federal Reserve. If they lose the bid of the Fed and it stops printing money and buying rates spike and then you see a massive deflationary bubble from a massive fiscal and monetary cliff. It's game over either way, and that's where we are now. **If you keep printing and keep manipulating markets, you have a bond market crisis. Stop printing, you have a deflationary crash of asset prices. That's it, that's where we are headed.**"*

As you can see in **the top chart** and **below**, the benchmark **10YR bond** is a paltry **1.6%**, and yet this is indicating higher inflation expectations and *increasing the cost of borrowing* for all consumers.

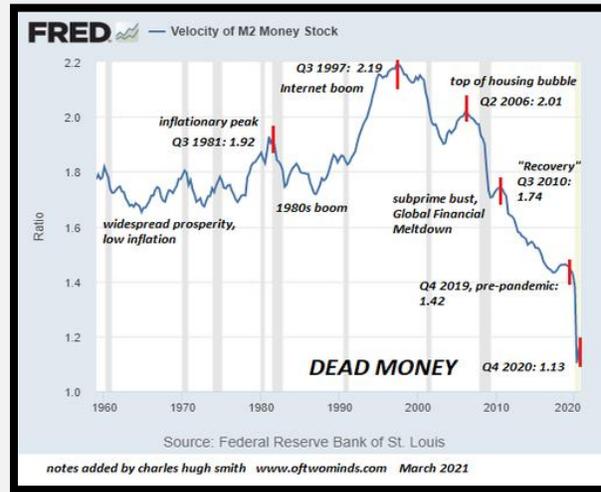

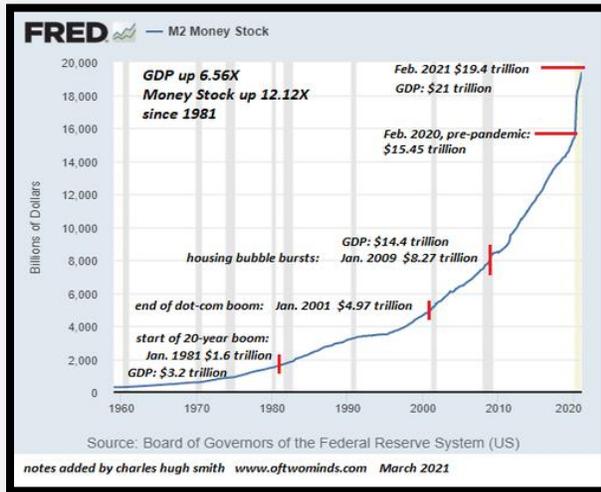

As Pento indicates, the Fed is trapped and they know it! They **MUST** inflate or die. As a [Swiss money manager said](#), "In order to pay the bills, the Fed **MUST** suppress rates going forward (especially on the 10Y Treasury, and possibly the 30Y) while simultaneously pursuing a deliberate policy of inflation and currency debasement to 'inflate away' some of Uncle Sam's debt obligations." Notice that the Fed has to *suppress* the **10YR bond** yield. Again, this hurts savers and forces investors to take risk in the stock market bubble. Pretty darn soon you are going to start hearing the term **Yield Curve Control** (YCC). This is a desperate act to keep the **30YR bond** yield low and to do this the Fed must buy **30YR bonds**, and this too is inflationary. See, what a mess all of this is? [Dan Lacalle says we are going the way of Japan](#) which has had a zombie economy for three decades. "The only thing that YCC does is to perpetuate bloated government spending and zombify the economy at the expense of real wages and the productive sectors. Once YCC fails, like all other financial repression tools, central banks and governments will say that it did not work because they did not do enough." **Central banks** didn't do *ENOUGH*? I mean, is this madness or what? All they know to do is print helicopter money.

The US, if not the entire world, is now facing stagflation. What is stagflation? It is slow economic growth, high unemployment and high inflation. By now, everyone knows that our central bank has simply papered over the Great Financial Crisis of **2008**. That should have been our reckoning day, but it has been postponed by loose fiscal policy, and now we are in worse shape than ever. In **2009**, the **Fed** starting cutting rates as a policy tool. Today, there is no room to cut rates. Our national debt is near **\$30 trillion** and global debt is now **\$290 trillion**, or **356%** to global **GDP**. This is why we are stuck with financial repression, stagflation and much worse outcomes in the future. It is also why they must keep the **Consumer Price Index** (CPI) artificially low, or deceptively low. [One blogger put it this way](#), "The Fed, in deep *need* of keeping its IOU-driven (i.e debt-driven) façade of "recovery" in motion, has no choice but to *invent* a respectably controlled (i.e. **LOW**) CPI inflation rate in order to make US Treasury bonds look even moderately attractive to others. After all, the US lives on those IOU's. They need to look pretty. If, however, the more honest and much higher 10% inflation rate were honestly reported on an honest CPI scale, the *inflation-adjusted* yield on the US 10-Year Treasury would be *negative* 8%, which hardly makes it a pretty bond for the world to either admire or buy. That's a problem for Uncle Sam. And so the Fed invents a CPI inflation number that is less embarrassing than reality. It's just that simple." The **Fed** also invents the notion that real wealth can be created out of thin air. **This little man** sitting in the **Eccles Building** is holding the destiny of our nation in his hands, and all he has is *consumer confidence* to maintain trust in the **US** dollar and the entire **US** bond market. Scary indeed.

At a recent hearing, the **Fed Chair** said they would not raise rates until **2023**. The **Cleveland Fed** said they would **keep rates near zero** until sometime in **2024**. How in the hell do these central planners know what the cost of money should be **40 months** from now? Fundamentally, interest rates should be set by the free market, right? Keeping rates repressed distorts capital allocation, malinvestment, moral hazard, bubbles, wealth inequality and impoverishment. Can the **Fed** really control the yield curve? I doubt it. Long before **2024**...real inflation will force higher yields and there is nothing the **Fed** can do about it. **Janet Yellen** wants more debt and spending. "If there was ever a time to go big," she says, "this is the moment." As you can see below, we have been *going big* since **2009**, even since **2001**.

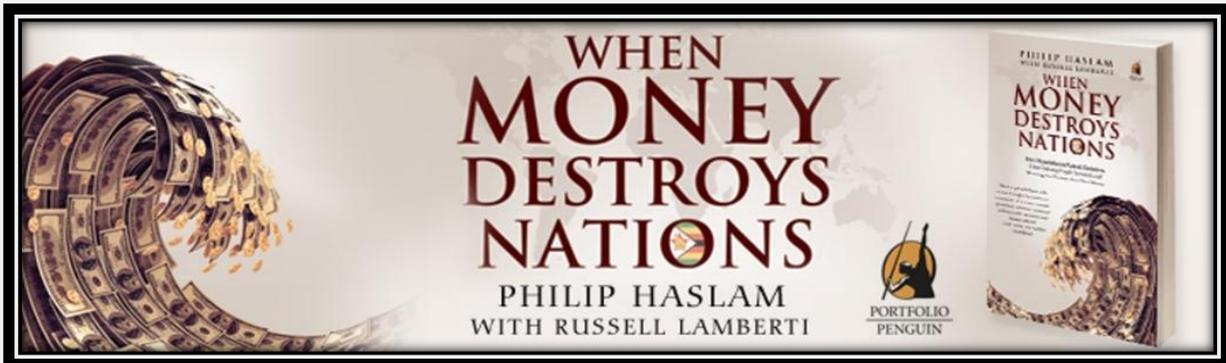

This is a chart of the broad **M2** money supply. It is up **26%** in one year! Why don't we see inflation at **26%**? This has something to do with what economists call **the velocity of money**. I think it is a key indicator of the real economy - it has to be. It is a measure of how money turns over among consumers and **you can see** that this metric has been falling since **1997**, and *dramatically* in the **Trump** years! So much for "the greatest economy in the world" narrative. As **Charles Hugh Smith** notes, consumers are broke and dollars that are spent go overseas for imported products (the China trade deficit).

Above is another chart to illustrate the **M2** money gap. This is also indicative of the **wealth gap** since the top **10%** own **90%** of financial assets. The **Fed** is contributing to this sense of unfairness and class warfare. I invite you to watch this **1-minute clip** demonstrating that even **monkeys** have a keen sense about fairness - [CLICK HERE](#). Now that the **US Treasury** is sending money directly to people we are fast approaching a tipping point that can lead to **hyperinflation**. Back in **2015**, I featured this **new book** below and the title says it all - *fiat paper money can destroy nations!* In fact, all fiat currencies have failed in history. The **US** thinks we are "exceptional" and we can avoid this fate. We are wrong.

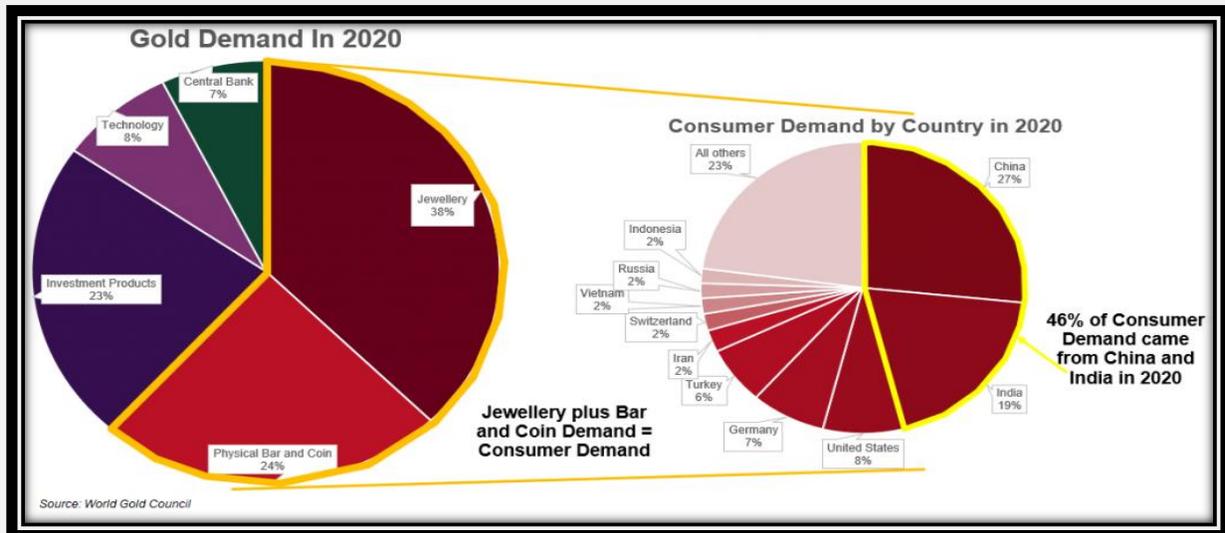

Hyperinflation & *The Destruction of Nations!*

[Excerpt from IDP Newsletter]. Now comes the new book by **Philip Haslam** that documents what happens when fiat paper money and reckless central bank fiscal policy destroys nations. **Mr. Haslam** is an economic advisor who lives in Johannesburg, South Africa and lectures on international finance. His book is a close study of what happened in **Zimbabwe** when hyperinflation hit *80 billion percent* in **2009**, and their central bank was printing *\$100 trillion dollar notes seen here – that is sixteen zeros!*

As seen here, a sign in a local latrine in **Zimbabwe** tells patrons not to use *their currency* as toilet paper! And that's all you need to know about **hyperinflation!** The author notes how the Marxists nationalized land and farms in **1990s**, but food shortages followed (because they didn't know how to farm). By **2000**, unemployment was 80% with 60% inflation. From **2000 to 2006**, inflation of the money supply went from 60% to 1,200% and there was not enough physical paper currency to meet the demand in the marketplace. People quickly resorted to barter for food, grains and fuel to survive, and eventually stores simply closed for lack of supply and lawlessness. Survival in the cities became difficult as people learned to create networks among friends and others moved to rural areas. By **2007**, banks stopped lending and credit froze up as inflation now hit 6,600% and nobody trusted the banks any more. People were mandated to only use **Zimbabwe** currency, but the black market was busy trading into other currencies. By **2008**, hyperinflation soared from 231 million percent to 3.8 billion percent and all **Zim** currency was referred to as "scorched money" as people got rid of it as fast as they could (into something tangible). By **2009**, hyperinflation had run its course and the entire central banking system collapsed in ruin. Near the end a loaf of bread cost 550 million and got as high as 10 billion, and needless to say all paper assets became worthless in this nation of 14 million **[End]**. In a more recent example of hyperinflation, **Venezuela** just introduced a million-bolivar note that is worth **53 cents**. Their currency has lost 99.99% of its value in six years. This is why people need real money as in **gold and silver**, and this will now be our focus as we consider the outlook for **2021**.

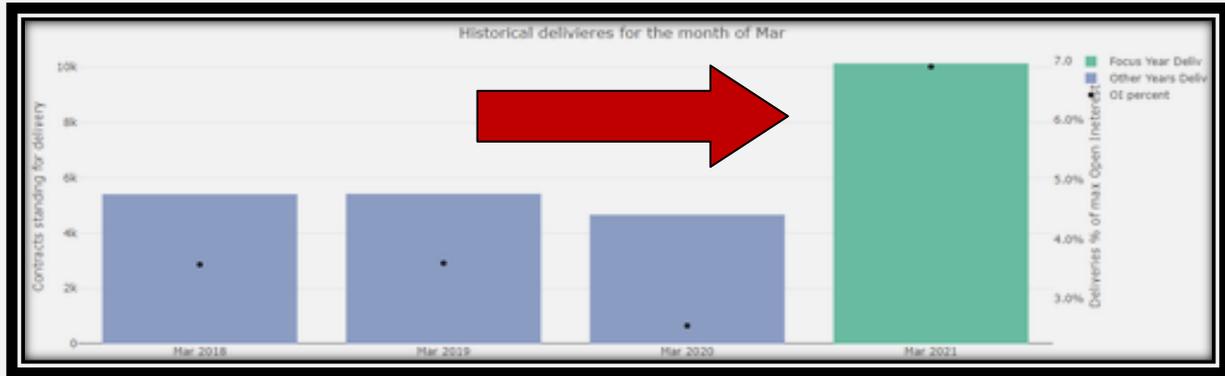

In the above chart we can see a breakdown of gold demand in 2020. As you can see, almost 50% is for investment demand, and you will also note that 46% of that demand is from **China** and **India**! In **India**, they buy **gold** for religious and cultural reasons. In **China**, they buy (and produce) **gold** for economic and *geostrategic reasons*. They see a day when our policy of **financial repression** will lead to **hyperinflation**. For a great overview on this important topic watch **this clip** when you have time:

[George Gammon: Hyperinflation and Fate of the US Dollar](#)

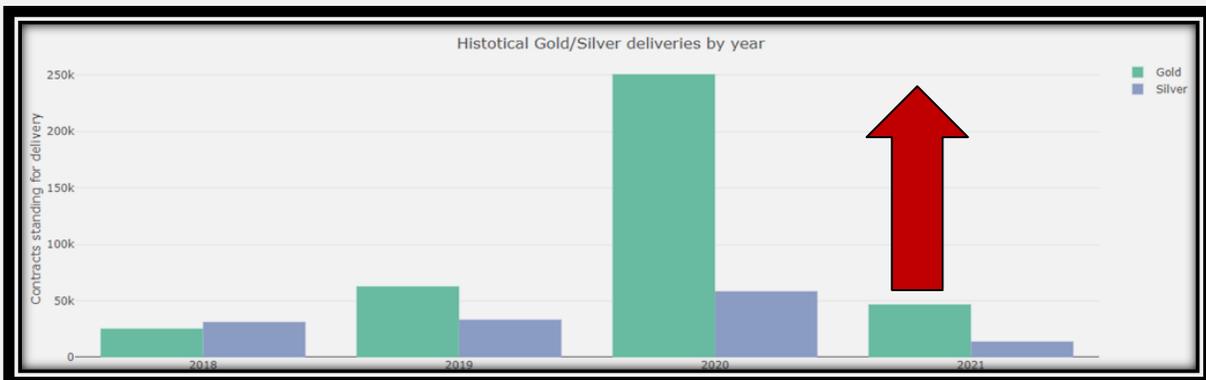

In this clip, **Gammon** relates the **German hyperinflation** and the death of money. I also cover this topic in **my book**, and encourage you to bookmark his **Youtube link above** for educational whiteboard illustrations. As I have covered in many past newsletters, the world needs to **restructure debt** that is **356%** to global **GDP**. This will require a **monetary reset** (debt jubilee) that will likely be managed by the **IMF-SDR** replacement of the **US** dollar with a **gold** component (notice that central banks are buying **gold** [for this reason](#)). I will make mention of this later. But the real story is **silver** as many of you know. **Silver** "prices" have been stuck in a virtual **Groundhog Day** for more than a decade. This criminal suppression scheme has been carried out at **Comex** in **NY** (Crimex) and the **London** gold desk (LBMA). But in recent days a huge **silver squeeze** is finally threatening the banker's money.

Silver Manipulation & Physical Delivery Issues

Last month, unwanted attention was directed to the *naked short positions on silver* at **Crimex** by the Redditt/Wall Street Bets traders (more in a moment). The word got out and has now exposed the fraud for all the world to see. **Crimex** was created in **1974** for the purpose of determining price for gold and silver in a paper-traded futures market. **Physical silver** is rarely traded and it is doubtful that they have much silver at all. As you can **see above**, physical delivery contracts have doubled from any previous **March!** **Below is a chart** for physical delivery of gold in **2020**, and **2021** exceeds previous years!

Why is this important? The **LBMA/Crimex** shell game is about to collapse and this means that gold and silver is about to have a moon shot, especially **silver** - see these charts at [THIS LINK](#). Economist **John Adams** [relates the mischief going on in silver](#) and he concludes with this comment:

*"Despite attempts by central bank officials to downplay (and in some cases conceal) the risk of inflation, evident signs of stagflation whether in the US or around the world will likely lead foreign investors to rapidly lose confidence in fixed-income financial assets such as bonds as well as fiat currencies. **The flight away from fiat currencies (such as the US dollar) into hard forms of money (such as physical gold and silver bullion) will exert additional pressure in both gold and silver markets, drying up necessary physical supply required to settle contractual delivery requirements, especially in the COMEX futures market.**"*

You can read his link above for more. We have just gotten word that the **Perth Mint, UK Royal Mint and US Mint** have *cancelled* retail **silver** orders! Read it [HERE](#). We also have word that **Poland** has just run out of **silver**, the **Sunshine Mint** (that provides silver for the US Mint) has halted any new orders for **silver** and Comex (Crimex) is not releasing any commercial **1,000 bars**. You can watch a **11-minute** clip at [THIS LINK](#) for more. The rush into **silver** is on and very long overdue.

What does all this mean? The controlled financial media (sponsored by the evil banksters) do not want you to know anything about how the fake paper **gold and silver** "price" is determined. This is supposed to be a secret. [According to metals expert Clint Siegner](#), the demand for **silver** is now **20-fold** from last year. It is **four times** any previous record. He also says that **Crimex** delivered almost **100 million ounces of silver** for the **March** contracts (yesterday), which is an all-time record! **Crimex** is running out of "eligible" **silver** for physical delivery and their back-up "registered" **silver** is now down to a measly **135 million ounces!** The evil banksters regularly trade paper futures contracts that exceed an annual production (900 million ounces) in just one day - but they do NOT have the physical **silver** to back this up. [See what I mean?](#) Just last year, the **Perth Mint** had a whopping **440%** increase in gold sales from February **2020**, but in this same time the gold price dropped **6%**. How can this be? The scam is finally being exposed for what it is. [According to the folks at Bullion Star](#), it appears that the **Bank of Nova Scotia** has withdrawn from its Comex-approved vault in NY. They have transferred their **silver** to a lesser entity, but it looks like the rats are jumping ship. Of course, the main criminal enterprise in all of this is **JP Morgan** with the largest naked short on **silver**, and also the custodian of the **SLV-ETF** with iShares. We are very close to driving a **silver stake** in their evil heart.

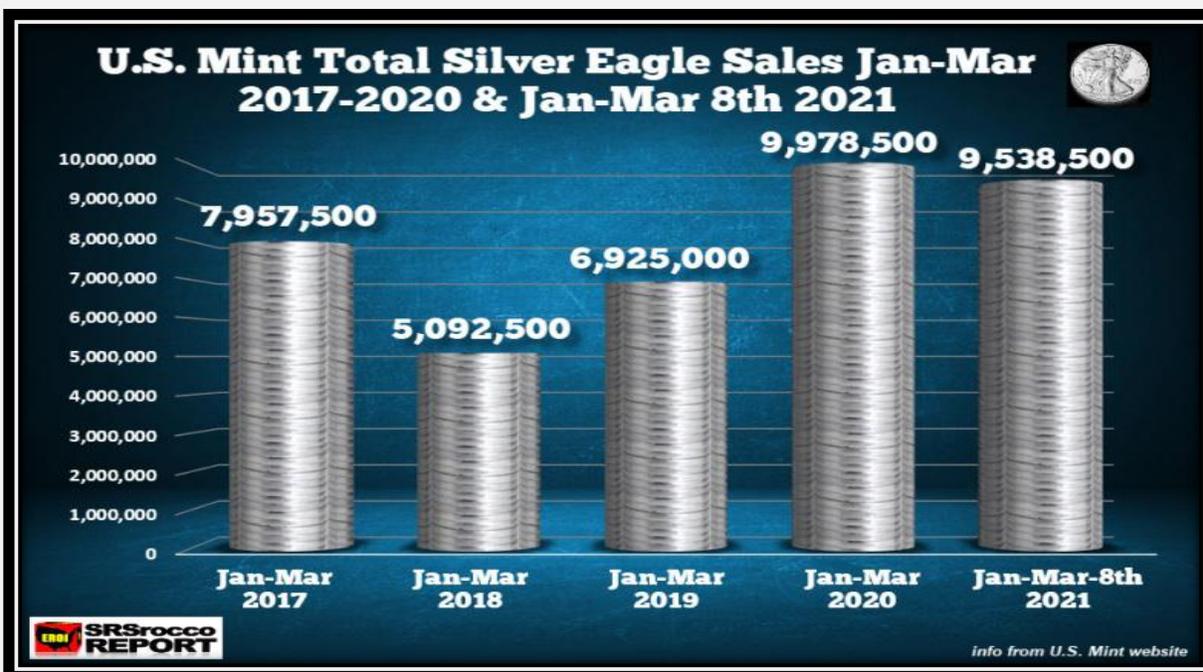

Ben Garrison, we appreciate your great illustrations - his [LINK](#). (Like that **666** reference). I have always said that **gold and silver** is like kryptonite to the **evil banksters**. [And they are evil](#). "The love of money is the root of all evil" (1 Tim. 6:10). As bankster **Josiah Stamp** once said, "Banking was conceived in iniquity and was born in sin." They have made us **slaves** to their fiat-fractional-reserve paper currency, as I cover in **my book**. Just consider how immoral it is to impose an *inflation tax* on people, *debase* their currency and then become a *tax donkey* on top of it all! This fact has not been lost on the younger day traders at **Wall Street Bets**. They piled into **SLV** and **SVIR** as I noted in my last newsletter. [The PSLV is the best because they have actual silver to back them up](#). **Adrian Day** says, "ETFs came to the silver market later than they did for gold, but they are arguably more important for the silver market. After all, an investor who wishes to buy \$1 million of gold can figure out a reasonable way to buy and store the metal. [But \\$1 million of silver is a hefty hoard, and shipping, storing, and insuring this is no inconsequential feat](#). It's so much easier to buy an ETF." His point is well taken, but this is all the more bullish for **silver**. These **ETFs** are drawing **physical silver** off the market and this is why my guy **Ed Steer** says all of this is wildly bullish for **silver**. The following **clip** will automatically start at the **42-minute** mark for his important comments. [Take a listen](#).

[Ed Steer: The Silver Squeeze is Wildly Bullish in 2021](#)

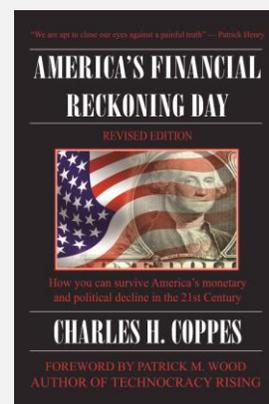

Finally, it looks like we are about to wake up from our **Groundhog Day** as the **LBMA/Crimex** shell game is falling apart and their dirty little secret is become better understood. It has been estimated that for every ounce of **silver** at **Crimex** there are perhaps **400** paper derivative contracts. I suspect this figure is much higher and it is simply a game of **musical chairs**. The current silver/gold ratio is now **69:1** and it should be **15:1**, or even **9:1** - the same rate it is mined from the earth! The rise of **BTC** is a good indication of where **silver** could go when the delivery defaults begin (*force majeure*). I think we will see \$10,000/oz. gold and **\$500/oz. silver** (maybe double). [A WSB day trader](#) recently started a GoFundMe account to buy a big **billboard** in **Times Square** exposing the silver squeeze - you have to love it! I saw this post on **Redditt** from a WSB trader. This article is rather well written with lots of charts and data - [LINK HERE](#). He notes the **Hunt Brothers** in **1980**, and how they squeezed silver:

"The regulators will try everything in their power to prevent the squeeze from happening again, but this time it's not two brothers and a couple of Saudi princes buying millions of ounces each (or just Warren Buffet on his own), but rather it's millions of retail investors buying a few ounces each. There is no cornering the market going on. This is actual silver demand running headlong into a silver market that banks have irresponsibly shorted to such a level that they deserve the losses that will hit them."

It should be noted that the **Hunt Brothers** had **200** million ounces of silver held in *the futures market* and **Crimex** imposed "margin requirements" to bankrupt them. They should have had **physical silver** and not paper silver! And that is what is so different at this moment in history. Will the regulators like the **CFTC** ever investigate this fraud and manipulation? **Ronan Manly** ([BullionStar](#)) says only if they are dragged and kicking and screaming. "The short answer is that the CFTC is an arm of the US Government, and the US Government does not want the paper silver trading scheme to end, as this would then be the end of the paper gold trading scheme, and the beginning of the end of the US dollar." This is truly what is at stake here. This is just not making some profit in **silver** - it is survival. The US dollar and bond markets are already heading for collapse. **Silver researcher Ted Butler** has been exposing **Crimex** and **JP Morgan** for years. In a recent call-to-action entitled **A Time to Act**, he has formatted a letter to copy and paste to the **CFTC**. I have done this and I encourage you to do this at [THIS LINK](#). Below is more evidence of the **physical silver demand**, and we are close to winning.

Summary & Conclusion. I hope you have been inspired by the latest in the silver market. I have been in this business **30** years, and I have never seen anything like it. As noted, it is "millions of retail investors" buying small amounts today. As always, if I can assist you with **precious metals** let me know. **Silver** is about to have a **moon shot**, and we are reminded of that line by Shakespeare, "There's *a tide* in the affairs of men which taken at the flood *leads to fortune*." I think we are looking at the largest transfer of wealth in history. I think even **JP Morgan** knows this; since they have acquired *one billion ounces* of physical silver since **2011** - what does that tell you? It is a *terrible injustice* that they've been able to rig **silver** while they warehouse it. As far as **gold**, it will also have a huge "repricing" as part of a **global monetary reset** to restructure debt against a new **gold** price. As I mentioned earlier, this will involve "a new financial architecture" as they call it at the **IMF**. And this is a reference to their **Special Drawing Rights** (SDR) to replace the **US** dollar as the reserve currency of the world (with a **gold** component). I cover this macroeconomic topic in **my book**, and it is also why **China** is buying so much **gold**! **Willem Middlekoop** is the author of *The Big Reset* he makes the same conclusion in a recent interview at the **12-minute** mark - [CLICK HERE](#).

It should be obvious that the Fed, and all major central banks, are now trapped. They are trapped into a policy of **financial repression** and even forcing *negative rates* in the **bond markets**! Folks, this has never been seen in human history. They are doing this because we're on an *unsustainable path* of loose fiscal spending and sovereign debt. As I have said many times, it hardly matters who is in the **White House** anymore (Trump added *\$8 trillion* to our national debt in *four years*!). The **most** serious domestic threat to the **US** is not the **Democratic Party**. It is that unelected technocrat sitting in the board room of the Federal Reserve Building (p. 7). The **Fed** always wants to "go big" when it comes to creating money out of thin air, and this will lead to [hyperinflation](#) as **Gammon** explains (p. 10).

Concluding, we have a new breed of **technocrats** today trying to impose the **Covid-19 Roadmap**, and this is very concerning. **Dr. Tenpenny** (p. 5) sees this leading to the mark of the beast (666), and I do agree. **Patrick Wood** is an authority on **Technocracy** and wrote the Foreword to **my book**. Go to his website at [THIS LINK](#) to learn more. I refuse to live in fear in this plandemic. **The Bible** says that all people live with the "fear of death" (Heb. 2:15). **But Jesus** died to cure the "sin virus" that we all have inherited from **Adam** (John 3:16). That is why I stress a biblical worldview and need for faith on my website at [THIS LINK](#). I pray that you will do this and share. The hour is getting late my friends.
